CONTENTS

SELECTED MACROECONOMIC INDICATORS -----	11
PART I. GRAPHICAL PRESENTATION -----	13
1. Financial corporations assets-----	13
2. Financial corporations net foreign assets-----	13
3. Growth of financial corporations net foreign assets -----	13
4. Sectoral breakdown of deposits at CBK -----	14
5. Sectoral and currency breakdown of deposits at ODC -----	14
6. Maturity breakdown of deposits at ODC -----	14
7. Sectoral breakdown of loans at ODC-----	15
8. Sectoral breakdown of new loans at ODC-----	15
9. Other depository corporations loans by economic sectors -----	15
10. Maturity breakdown of ODC loans-----	16
11. Growth of loans and deposits at ODC -----	16
12. Interest rates on loans and deposits of ODC -----	16
13. ODC income and expenditures-----	17
14. Growth of income at ODC and contribution to the growth -----	17
15. Growth of expenditures at ODC and contributions to the growth -----	17
16. Kosovo budget -----	18
17. Prices -----	18
18. Prices, main categories -----	18
19. Imports and producer prices -----	19
20. Exchange rates against euro currency -----	19
21. Real effective Exchange rate -----	19
22. Trade balance -----	20
23. Exports of goods -----	20
24. Imports of goods -----	20

PART II. STATISTICAL TABLES-----23

1. FC survey-----	23
1.1. NFA and domestic claims-----	23
1.2. Liabilities-----	23
2. DC survey-----	24
2.1. NFA and domestic claims-----	24
2.2. Liabilities-----	25
3. CBK survey-----	26
3.1. NFA and domestic claims-----	26
3.2. Liabilities-----	27
4. ODC survey-----	28
4.1. NFA and domestic claims-----	28
4.2. Liabilities-----	29
5. OFC survey-----	30
5.1. NFA and domestic claims-----	30
5.2. Liabilities-----	30
6. CBK balance sheet-----	31
6.1. Assets-----	31
6.2. Liabilities-----	32
7. ODC balance sheet-----	33
7.1. Assets-----	33
7.2. Liabilities-----	34
8. Deposits at ODC-----	35
8.1. Euro deposits-----	35
8.2. NFC, euro deposits-----	36
8.3. Households and NPISH, euro deposits-----	37
8.4. FC, euro deposits-----	38
8.5. Non-euro deposits-----	39
9. ODC loans-----	40
9.1. Main sectors-----	40
9.2. New loans-----	41
9.3. Main economic sectors-----	42
9.4. Industry, electricity and construction-----	43
9.5. Services-----	44
10. ODC effective interest rates-----	45
10.1. Deposits interest rates-----	45
10.2. Credit interest rates-----	46
11. ODC income statement-----	47

11.1. Income and expenditures-----	47
12. Payment system -----	48
12.1. Selected indicators-----	48
13. Foreign transfers-----	49
13.1. Income and outflow transfers-----	49
14. OFI activity-----	50
14.1. The number and amount of loans-----	50
15. ODC network and number of employees-----	51
15.1. Main regions-----	51
16. IC activity-----	52
16.1. Income premiums and paid claims-----	52
17. Kosovo budget-----	53
17.1. Income and expenditures-----	53
18. Gross domestic product-----	54
18.1. Expenditure approach-----	54
18.2. Approach by economic activity-----	54
19. Prices (CPI)-----	55
19.1. Main components-----	55
19.2. Imports and producer prices-----	56
20. Balance of payments-----	57
20.1. Main components-----	57
20.2. Net services-----	57
20.3. Services-credit-----	57
20.4. Services-debit-----	58
20.5. Income-----	58
20.6. Current transfers-----	58
20.7. Financial account-net-----	59
20.8. Financial account-investments in reporting economy-----	59
20.9. Financial account-investments abroad-----	59
21. Remittances-----	60
21.1. By channels-----	60
21.2. By countries-----	60
22. Foreign direct investments-----	60
22.1. By economic activity-----	60
22.2. By countries-----	60
23. Trade balance-----	61
23.1. Exports by trading partners-----	61
23.2. Exports by trading partners-European Union-----	62

23.3. Exports by trading partners-CEFTA-----	63
23.4. Exports by trading partners-other European and Non-European countries --	64
23.5. Imports by trading partners-----	65
23.6. Imports by trading partners-European Union -----	66
23.7. Imports by trading partners-CEFTA-----	67
23.8. Imports by trading partners-other European and Non-European countries --	68
23.9. Exports by commodity groups-----	69
23.10. Imports by commodity groups-----	70
23.11. Imports by trading partners and main commodity groups -----	71
23.12. Imports by Broad Economic Categories (BEC) -----	72
24. Exchange rate -----	73
24.1. Exchange rate against euro -----	73
24.2. Real and nominal effective Exchange rate-----	74

PART III. EXPLANATORY NOTES----- 77

Macroeconomic indicators

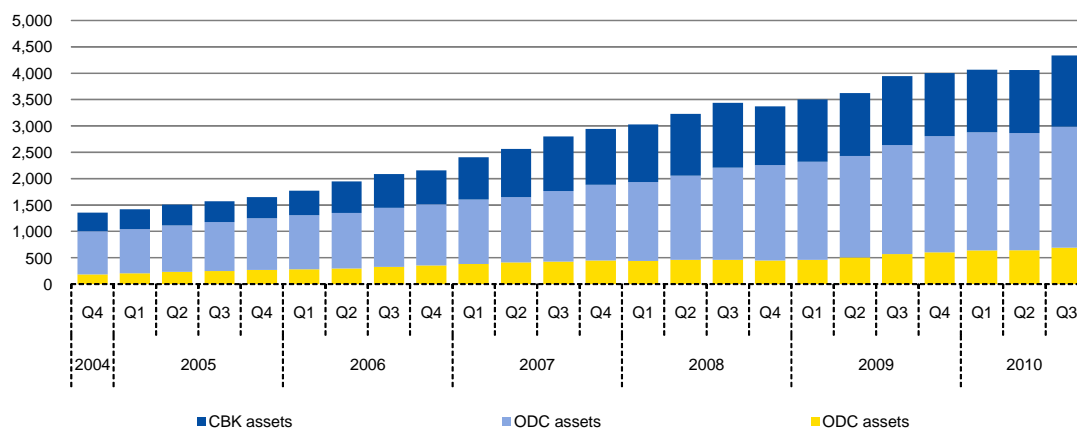

Description	2005	2006	2007	2008	2009
Real sector

Part III. EXPLANATORY NOTES

Based on the Law No. 03/L-074 on the Central Bank of the Republic of Kosovo, CBK compiles and publishes statistics and disseminates information related to statistical methodology. Statistics that fall under the scope of CBK responsibilities are monetary and financial statistics, and external sector statistics (balance of payments and international investments position). In addition, CBK also publishes statistics from other sources such as real and fiscal sector statistics. Monthly Statistics Bulletin is compiled and published based on international standards on statistics. The detailed methodology related to compilation of monetary and financial statistics and balance of payments statistics can be found in the CBK website (www.bqk-kos.org):

- [Monetary and Financial Statistics Methodology](#);
- [Balance of Payments Statistics Methodology](#).

This explanatory note is a brief description on contents, periodicity and the source of graphs and tables presented in the Monthly Statistics Bulletin. Explanatory notes contain also information on methodological breaks and implications for the specific items in this bulletin.

GRAPHS

Graph 1. Assets of financial corporations

Description: The financial corporations sector consists of all resident corporations and quasi-corporations principally engaged in financial intermediation or in related auxiliary financial activities. Data presented in this graph include CBK, other depository corporations (commercial banks), other financial corporations (microfinance institutions, insurance companies, pension funds, and financial auxiliaries). Data are aggregated.

Periodicity: Quarterly

Source: Table 3.1, 4.1, and 5.1

Graph 2. Net foreign assets of financial corporations

Description: Net foreign assets are comprised from claims on nonresidents less liabilities to non-residents and is calculated by deducting the liabilities to nonresidents from claims on nonresidents. In this context are included CBK net foreign assets, other depository corporations (commercial banks), other financial corporations (microfinance institutions, insurance companies, pension funds, and financial auxiliaries).

Periodicity: Quarterly

Source: Table 3.1, 4.1, and 5.1

Graph 3. Growth of net foreign assets of financial corporations

Description: the growth of financial corporations net foreign assets is calculated on annual basis on the level of CBK, other depository corporations (commercial banks), other financial corporations (microfinance institutions, insurance companies, pension funds, and financial auxiliaries). The growth of foreign assets of other financial corporations is calculated by aggregating the value of assets of these corporations and by calculating the annual growth rate.

Periodicity: Quarterly

Source: Table 3.1, 4.1, and 5.1

Graph 4. Sectoral breakdown of deposits at CBK

Description: In Kosovo, Central Bank of the Republic of Kosovo performs the function of the central bank. Sectoral classification of deposits is based on international statistical standards. Commercial banks are classified as other depository corporations, whereas other financial corporations comprise insurance companies and pension funds. Deposits of Privatization Agency of Kosovo are presented separately from deposits of central government. In central government deposits is included IMF quota subscription also.

Periodicity: Monthly

Source: Table 6.2

Graph 5. Sectoral and currency breakdown of deposits at other depository corporations

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Government deposits include Central Government deposits (e.g. ministries, etc.) and local government (e.g. municipalities). Other financial corporations include all financial institutions except the central bank and other depository corporations which are reported separately. Public nonfinancial corporations include public corporations (e.g. PTK, KEK, etc.), whereas other financial corporations comprise private nonfinancial companies. Household category comprises all households holding bank accounts, whereas nonresidents include all nonresidents holding bank account in Kosovo. The share of euro deposits to total deposits is calculated by dividing deposits in euro currency with total deposits. For more regarding the sectorial breakdown and residency criteria, see Monetary and Financial Statistics Methodology.

Periodicity: Monthly

Source: Table 8.1 and 8.5

Graph 6. Maturity breakdown of deposits at other depository corporations

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial

intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. Classification of deposits by maturity was made based on criteria of original maturity (e.g. if in January 2009 there is a deposit of one year maturity, this deposit is reported under the item “up to one year” until the end of maturity). Since 2010 there is a methodological break in terms of breakdown of deposits. Nevertheless, up to 2009, saving deposits were included in the item “other deposits” that comprised time and saving deposits. Starting from 2010, saving deposits are reported as separate item.

Periodicity: Monthly

Source: Table 8.1 and 8.5

Graph 7. Sectoral breakdown of other depository corporations loans

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. Classification of loans by sectors is based on the sector which was given the loan. If the loan was issued to a company, that loan is classified as a loan to nonfinancial corporation (public or private).

Periodicity: Monthly

Source: Table 9.1

Graph 8. Sectoral breakdown of other depository corporations new loans

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. New loans include loans extended only within the referring period and as such are classified as flow data (e.g. loans of February 2010 represent only loans issued during that month, not including loans issued during previous periods, as is the case with outstanding loans).

Periodicity: Monthly

Source: Table 9.2

Graph 9. Economic sectors breakdown of other depository corporations loans

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. The classification of loans

by economic sectors was based on NACE classification, which represents the classification of loans by purpose.¹

Periodicity: Monthly

Source: Table 9.3

Graph 10. Maturity breakdown of other depository corporations loans

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. Classification of loans by maturity is based on the original criteria (e.g. if in January 2009 were issued loans of one year maturity, these loans are reported under the item “Up to one year” until the end of maturity). Starting from 2010 there is a detailed breakdown of loans by maturity. Maturity “above 2 years and up to 5 years” prior to 2010 includes all deposits with the original maturity above 2 years.

Description: Monthly

Source: Table 9.1

Graph 11. Growth of loans and deposits at other depository corporations

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. Growth of loans and deposits is performed on annual basis through annual growth formula. The ratio of loans to deposits includes all loans divided by deposits, excluding interbank deposits.

Periodicity: Monthly

Source: Table 7.1 and 7.2

Graph 12. Interest rates on loans and deposits at other depository corporations

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. Interest rate on deposits and loans are calculated by using the effective interest rate formula based on arithmetic weighted average. The calculation formula of effective interest rate is as follows:

¹ For details on NACE classification visit http://epp.eurostat.ec.europa.eu/cache/ITY_OFFPUB/KS-RA-07-015/EN/KS-RA-07-015-EN.PDF

$$AAR = \left(1 + \frac{AG}{n}\right)^n - 1$$

where *AAR* stands for annualized agreed rate, *AG* is the nominal agreed rate among the parties, and *n* is the number of capitalization periods per year, i.e. *n*=1 for yearly interest payment (12/12), *n*=2 for semi-annual interest payment (12/6), *n*=4 for quarterly interest payments (12/3), and *n*=12 for monthly interest payments.

Since 2010, there is a detailed breakdown of the banks products in terms of sectors and maturity. Furthermore, since 2010, loans with special conditions are not included in the calculation of the weighted average interest rate. These are flow data that include new contracts during the respective month. For detailed description on interest rate calculation refer to the [Monetary and Financial Statistics Methodology](#).

Periodicity: Monthly

Source: Table 10.1 and 10.2

Graph 13. Other depository corporations income and expenditures

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. In income category are included all incomes from the banking activity, as interest income, non-interest income, etc., whereas within expenditures are included interest expenditures, non-interest expenditures, administrative expenditures (including expenditures of the bank staff). The data are aggregated on the level of other depository corporations. The data are outstanding within the calendar year (e.g. the data of January 2009 include the data only for January 2009, whereas the data as of June 2009 include the data from January 2009 up to June 2009).

Periodicity: Monthly

Source: Table 11.1

Graph 14. Growth of income at other depository corporations income and contribution to the growth

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. The income growth is calculated by using cumulative amounts within the calendar year, through the growth formula. In order to identify the contribution of each component it is used the contribution formula (percentage point):

$$\text{Percentage Point} = \frac{(g_0 - g_{-1})}{z_{-1}} * 100$$

where the variable g is part of the variable z .

Periodicity: Monthly

Source: Table 11.1

Graph 15. Growth of expenditures at other depository corporations expenditures and contributions to the growth

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo other depository corporations are commercial banks. The expenditure growth is calculated by using cumulative amounts within the calendar year, through growth formula. In order to identify the contribution of each component, the contribution formula is used (percentage point):

$$\text{Percentage point} = \frac{(g_0 - g_{-1})}{z_{-1}} * 100$$

where the variable g is part of the variable z .

Periodicity: Monthly

Source: Table 11.1

Graph 16. Kosovo budget

Description:

General government exercises legislative, judicial, or executive authority over other institutional units within a specified area and is comprised from the central government, federal government, local government and social security funds. In case of Kosovo, there are two levels, Central Government and local government. The represented data are cumulative amounts within the calendar year (e.g. the data of January 2009 include the data only for January 2009, whereas the data as of June 2009 include the data from January 2009 up to June 2009). The difference between the income and expenditures represent the budget balance.

Periodicity: Monthly

Source: Table 17.1

Graph 17. Prices

Description: Statistics on prices are represented based on the annual change and the annual average. Since the annual difference is based on the annual growth formula, the annual average is used based on the average of last 12 months by dividing with previous 12 months (e.g. prices of December 2009 are calculated based on index average for the period January 2009-December 2009 and by dividing with the average for the period January 2008-December 2008). The formula for calculating the annual change and the annual average is shown below:

$$\text{Annual change} = \left[\left(\frac{CPI^{Y,m}}{CPI^{Y-1,m}} \right) - 1 \right] * 100$$

where $CPI^{Y,m}$ represents Consumer Price Index for the current month (m) of the current year (Y), whereas $CPI^{Y-1,m}$ represents prices index of the current month (m) of the previous year ($Y-1$).

$$\text{Annual average} = \frac{\sum_{i=1}^m CPI^{Y,i} + \sum_{m+1}^{12} CPI^{Y-1,12}}{\sum_{i=1}^m CPI^{Y-1,i} + \sum_{m+1}^{12} CPI^{Y-2,12}}$$

Periodicity: Monthly

Source: Table 19.1

Graph 18. Prices main categories

Description: The calculated percentages were performed based on annual change. The classification in categories as food and beverages, alcoholic drinks, etc., is based on the COICOP (Classification of Individual Consumption by Purpose).²

Periodicity: Monthly

The source of the data: Table 19.1

Graph 19. Import and producer prices

Description: Prices of imports comprise the import prices which are imported based on using specific weights, whereas, producer prices comprise prices of domestic producers by using specific weights.

Periodicity: Quarterly

Source: Table 19.2

Graph 20. Exchange rate against euro

Description: The exchange rate is compiled based on monthly average exchange rate and includes Albanian lek, Swiss franc, British pound, Croatian kuna, Macedonian denar, Serbian dinar, Turkish lira and American dollar.

Periodicity: Monthly

Source: Table 24.1

Graph 21. Real effective exchange rate

Description: Real Effective Exchange Rate (REER) is calculated by using Consumer Price Index (CPI) and Harmonized Consumer Price Index (HICP). Prior to REER calculation, calculate Nominal Effective Exchange Rate (NEER) is calculated. The formula for calculating NEER is as follows:

$$NEER_t = 100 \sum_{i=1}^n \frac{E_{it}}{E_{i0}} w_i$$

where i represents the individual country currencies, E_{it} represents the nominal exchange rate of euro currency against other currencies on monthly basis (t) defined as the number of currency units of the country (i) for one unit of the domestic currency. E_{i0} represents nominal exchange rate of euro currency against currencies of respective country in the base period, and w_i is the weight of the domestic currency (i).

REER is calculated based on the formula below:

$$REER_t = \sum_{i=1}^n \frac{w_i P_{dt}}{P_{ft}} NEER_t$$

where P_{ft} represents the index for foreign prices on monthly basis (t) for each countries separately comparing with the base period, whereas P_{dt} represents CPI of Kosovo on monthly basis (t) comparing with the base period.

Periodicity: Quarterly

TABLES³

Table 1. Financial corporations survey

Description: Financial corporations sector consists of all resident corporations and quasi-corporations engaged in financial intermediation or in related financial activities and are comprised from depository corporations and other financial corporations. Financial corporations survey represents the consolidated financial position of the financial corporations with the external sector, fiscal sector and real sector and is compiled from depository corporations survey (CBK and commercial banks) and other financial corporations survey (insurance companies, pension funds, microfinance institutions, and assets managers). In terms of presentation, the survey differs from the balance sheet

³ Explanatory notes refer to group of tables which have been presented separately in the Monthly Statistics Bulletin (e.g. explanatory notes will be presented on the level of financial corporations survey including table 1.1. Net Foreign Assets and Domestic Claims, and table 1.2. Liabilities).

because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach.

Periodicity: Quarterly

Source: Table 3.1, 3.2, 4.1, 4.2, 5.1 and 5.2

Table 2. Depository corporations survey

Description: Depository corporations comprise the central bank and other depository corporations (commercial banks). Depository corporations survey represents the consolidated financial position of depository corporations with other financial corporations, external sector, fiscal sector and real sector and is compiled from CBK and other depository corporations survey. At this level, the consolidation is performed among CBK and other depository corporations. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas the surveys are presented based on the sectoral approach. The concept on broad money includes only deposits which are part of broad money excluding currency in circulation. Broad money comprises deposits of other financial corporations (insurance companies, pension funds, etc.), deposits of nonfinancial corporations, households, and NPISH. This definition is consistent with European Central Bank definition.

Periodicity: Monthly

Source: Table 3.1, 3.2, 4.1 and 4.2

Table 3. CBK survey

Description: CBK survey is compiled from CBK balance sheet and includes the CBK financial position with other depository corporations, other financial corporations, external sector, fiscal and real sector. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach.

Periodicity: Monthly

Source: Table 6.1 and 6.2

Table 4. Other depository corporations survey

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Other depository corporations survey represents the consolidated financial position of other depository corporations with CBK, other financial corporations, external sector, fiscal sector and real sector. Other depository corporation survey is compiled from the other depository corporations balance sheet. In terms of presentation, the survey differs from the balance

sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach. There are some methodological changes within the liabilities of other depository corporations being presented within the explanatory notes of Table 8.

Periodicity: Monthly

Source: Table 7.1 and 7.2

Table 5. Other financial corporations survey

Description: Other financial corporations survey is compiled from insurance corporations balance sheets, pension funds, microfinance institutions, and assets managers. Other financial corporations survey represents the consolidated financial position of other financial corporations with depository corporations (central bank and commercial banks), external sector, fiscal and real sector. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach.

Periodicity: Monthly

Source: CBK

Table 6. CBK balance sheet

Description: CBK balance sheet represents the financial position of CBK. Within other financial corporations being presented on CBK liabilities side are included deposits of insurance companies and pension funds. Government deposits include also Privatization Agency of Kosovo deposits, being presented separately. Within the government deposits at CBK, is included also IMF quota subscription.

Periodicity: Monthly

Source: CBK

Table 7. Other depository corporations balance sheet

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. The balance sheet of other depository corporations represents the aggregated statement of this sub-sector. Since June 2004 there is a methodological change in the balance sheet of other depository corporations. This consists with the implementation of statistical project, namely, Statistical Bank Report and Interest Rate Report. For detailed description on methodological changes, refer to explanation given under Table 8.

Periodicity: Monthly

Source: CBK

Table 8. Other depository corporations deposits

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Deposits at other depository corporations are classified by sectors, sub-sectors and currencies. Until May 2004, the structure of deposits was composed only from households and legal entities. Within deposits of legal entities are included deposits of all institutions except commercial banks. Moreover, within households deposits, until May 2004, were included also the deposits of NPISH. Since June 2004 until December 2007, deposits of insurance companies include also deposits of pension funds. Maturity breakdown deposits was made based on the criteria of original maturity (e.g. if in January 2009 there is a deposit of one year maturity, then this maturity is reported under the item “up to one year” until the end of maturity). Since 2010, saving deposits are reported as separated, previously included in the item “other deposits” by maturities. Also, there is a detailed breakdown in terms of deposits by maturity. Item “above 2 years and up to 5 years” up to 2009 includes all deposits with the maturity above 2 years.

Periodicity: Monthly

The source data: CBK

Table 9. Other depository corporations loans

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Other depository corporations loans are represented as outstanding amounts and as new loans extended during the month. Outstanding loans include commercial banks claims towards the respective sectors, such as public nonfinancial corporations, other nonfinancial corporations, households, classified by maturities. In this context is not included interbank activity. New loans include new loans extended only during a certain period and as such they are flow data (e.g. loans of February 2010 represent only loans issued during that month, not including loans issued prior to that period, as is the case with outstanding loans). Besides sectors and sub-sectors institutional classification, loans are classified also by purpose. This breakdown is based on NACE classification.⁴ Starting from 2010, there is a detailed breakdown in terms of deposits by maturity. Loans with the maturity of “above 2 years and up to 5 years” up to 2009 include all loans with the maturity of above 2 years. Table on loans by maturity includes loans in euro currency, while table on loans by industry includes loans to resident sector, excluding households and NPISH.

Periodicity: Monthly

Source of the data: CBK

⁴ For details on NACE classification visit http://epp.eurostat.ec.europa.eu/cache/ITY_OFFPUB/KS-RA-07-015/EN/KS-RA-07-015-EN.PDF

Table 10. Other depository corporations interest rates

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Interest rates are compiled based on annual agreed rate. Sectors are classified as nonfinancial corporations (public and private) and households, complying with international standards. Since January 2008, there is a methodological change, where interest rates on loans include also administrative fees applied by commercial banks for loans extended, paid by borrowers. Since January 2008, statistics related to overdrafts are presented as outstanding and as such are not included in calculating weighted average. While calculating and publishing interest rates statistics, is used the arithmetic weighted average and criteria such as standard deviation, minimum observations, etc. Annual agreed rate is calculated as follows:

$$AAR = \left(1 + \frac{AG}{n}\right)^n - 1$$

where *AAR* stands for annualized agreed rate, *AG* is the contracted nominal rate agreed among the parties, and *n* is the number of capitalization periods per year, i.e. *n*=1 for yearly interest payments (12/12), *n*=2 for semi-annual interest payments (12/6), *n*=4 for quarterly interest payments (12/3), and *n*=12 for monthly interest payments.

These are flow data, representing new contracts during the month. For detailed description on interest rate calculation refer to the Methodology on Monetary and Financial Statistics.

Periodicity: Monthly

Table 11. Other depository corporations income statement

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Other depository corporations income statement represents aggregated position of banks income and expenditures. Income structure is broken down into interest income and non-interest income. The same criterion is used in expenditure classification. Income statement data are presented on monthly basis, being presented as cumulative within the calendar year, (e.g. the data of January 2009 include the data only for January 2009, whereas the data as of June 2009 include the data from January 2009 up to June 2009).

Periodicity: Monthly

Source: CBK

Table 12. Payments system

Description: Interbank payments include statistics referring to the value of overdrafts through Automatic Teller Machines (ATMs), Point of Sales (POSs), e-Banking, etc. These statistics are presented as cumulative within the calendar year (e.g. the data of January 2009 include the data only for January 2009, whereas the data as of June 2009 include the data from January 2009 up to June 2009). As opposite from statistics representing the value of transactions, statistics on the number of ATMs, POSs, banking accounts and the number of e-Banking accounts are outstanding data.

Periodicity: Quarterly

Source: CBK

Table 13. International transfers

Description: In terms international transfers are presented incoming and outgoing transfers by sub-sectors. The data are presented as cumulative within the calendar year (e.g. the data of January 2009 include the data only for January 2009, whereas the data as of June 2009 include the data from January 2009 up to June 2009). CBK other depository corporations (commercial banks) transfers apart from client transfers include also transfers on behalf institution, CBK and commercial banks.

Periodicity: Monthly

Source: CBK

Table 14. Other financial intermediaries loans

Description: Other financial intermediaries comprise all financial corporations except depository corporations, insurance companies, pension funds, and financial auxiliaries. In Kosovo case, other financial intermediaries comprise microfinance institutions. The amount and the number of loans are represented as outstanding. Other financial intermediaries include microfinance institutions which together with other depository corporations (commercial banks) are the institutions for extending loans in Kosovo. The amount of loans is presented on gross basis.

Periodicity: Monthly

Source: CBK

Table 15. Other depository corporations network and staff

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Data on other depository

corporations (commercial banks) network are presented on the level of Kosovo regions. Within the banking units are included head offices, branches, sub-branches, and all other banking units. The data on banking network and its staff are outstanding.

Periodicity: Monthly

Source: CBK

Table 16. Insurance corporations activity

Description: This subsector includes resident insurance corporations and quasi-corporations whose principal function is to provide life and non-life insurance. In terms of insurance companies activity are represented the income from domestic insurance of vehicles (third party liabilities), and other insurances (property insurance, insurance against fire, and other misfortune insurances). In compliance to this classification are presented the number of sold insurance policies and insurance companies' expenditures.

Periodicity: Monthly

Source: CBK

Table 17. Kosovo budget

Description: The table on Kosovo budget presents the actual income and expenditures. The income is classified as border and domestic income further detailed by the type of tax (VAT, presumptive tax, etc.). Due to the consistence of Ministry of Economy and Finance, the data on donors are not presented within the government income. Budget expenditures are presented based on the expenditures purpose broken down by holders (government levels).

Periodicity: Monthly

Source: Ministry of Economy and Finance

Table 18. Gross domestic product

Description: The data on Gross Domestic Product (GDP) are presented in nominal terms. Within the data on government consumption are included the wages of international staff working in Kosovo. Net export comprises export and import of goods (including transport and insurance expenditures) and export and import of services. GDP statistics are presented on the basis of expenditures and by economic sectors approach.

Periodicity: Annually

Source: Statistical Office of Kosovo

Table 19. Prices

Description: Prices statistics are compiled based on COICOP (Classification of Individual Consumption by Purpose) using specific weights by components and sub-components.⁵ Statistics on prices are retrieved from respective regional offices as Ferizaj, Gjakova, Gjilan, Mitrovica, Peja, Prizren and Prishtina. Statistics on prices are presented based on annual change and annual average. Since the annual change is based on annual growth formula, the annual average is used being based on the average of last 12 months dividing by the average of 12 previous months (e.g. prices of December 2009 are calculated being based on index average for the period of January 2009 - December 2009 and dividing by the average of January 2008 - December 2008). The annual change formula and the annual average prices formula is as follows:

$$\text{Annual change} = \left[\left(\frac{CPI^{Y,m}}{CPI^{Y-1,m}} \right) - 1 \right] * 100$$

where $CPI^{Y,m}$ presents prices index for the actual month (m) of the current year (Y), whereas $CPI^{Y-1,m}$ presents prices index for the actual month (m) of the previous year ($Y-1$).

$$\text{Annual average} = \frac{\sum_{i=1}^m CPI^{Y,i} + \sum_{m+1}^{12} CPI^{Y-1,12}}{\sum_{i=1}^m CPI^{Y-1,i} + \sum_{m+1}^{12} CPI^{Y-2,12}}$$

Table 24. Exchange rate

Description: Exchange rate is compiled based on monthly average currencies against euro currency. The currencies presented belong to countries which represent the main trade partners of Kosovo and other regional countries. For information purposes, was included also US dollar against euro. Real Effective Exchange Rate (REER) is calculated using Consumer Price Index (CPI) and Harmonized Consumer Price Index (HCPI). Prior to calculating REER Nominal Effective Exchange Rate (NEER) is calculated. NEER calculating formula is as follows:

$$NEER_t = 100 \sum_{i=1}^n \frac{E_{it}}{E_{i0}} w_i$$

where i represents the individual country currencies, E_{it} represents the nominal exchange rate of euro currency against other foreign currencies on monthly basis (t) defined as the number of currency units of the country (i) for one unit of the domestic currency. E_{i0} represents nominal exchange rate of euro currency against currencies of respective country in the base period, and w_i is the weight of the domestic currency (i).

After that REER is calculated based on the following formula:

$$REER_t = \sum_{i=1}^n \frac{w_i P_{dt}}{P_{ft}} NEER_t$$

where P_{ft} represents the index for foreign prices on monthly basis (t) for each of the countries separately comparing with the base period, whereas P_{dt} represents CPI of Kosovo on monthly basis (t) comparing with the base period.
