EXPLANATORY NOTES

TABLES 1-5 : MONETARY SURVEY and BALANCE SHEETS OF THE DEPOSITORY CORPORATIONS

Source(s): Monthly reporting forms submitted by licensed commercial banks, which form the Other Depository Corporations (ODC), to the Banking and Payments Authority of Kosovo (BPK). The ODC and the BPK together do form the Depository Corporations (DC) in the classification of the Monetary and Financial Statistics Manual of the IMF.

Monthly data provided by the Accounting Department of the BPK. Monthly estimate of currency holdings based on information from the BPK and commercial banks. Data for currency holdings outside DC for period March, June and September 2002 are lineary interpolated.

Classification(s): Institutional units are classified into sectors. The sector classification in the monetary and financial statistics is based on the SNA 1993.

The classification of the financial instruments is based on the SNA 1993 and MFSM 2000.

Definition(s):**Residency**

The residency criteria in books of the banks is based on the country in the address information given by the accountholder to the DC. This implies that persons who do not fulfill the SNA 93 criteria to be considered as residents – in principle having their main center of economic interest in the country concerned – may be counted as residents. The reverse situation may hold also.

In the monetary and financial statistics UNMIK-bodies are considered as domestic sector, except the UNMIK-entities which are solely working for the administrative part related to the UNO-administration. These are considered as nonresidents as are all liaison offices in Kosovo.

Monetary aggregates

Broad money (M2) is a multi-currency concept containing cash holdings, current, time and saving accounts at the commercial banks and BPK by resident entities other than the DCs and the central government. Deposits in process (deposits in transit from one account to another at the time when reporting forms are established and reported to the BPK) are included in the monetary aggregates. Due to lack of the data, deposits of Other Financial Corporations (OFC) with commercial banks are not part of broad money. To ensure an equal sector treatment, the deposits of OFC at BPK are not considered as part of the monetary aggregates. This will change once the commercial banks fill out the new reporting scheme in which the details on OFI will become available. From then onwards, the money holdings of OFI will be included in the monetary aggregates. A similar situation applies actually for the government sector, where at the present juncture not only the central government money holdings are excluded from the monetary aggregates but also those belonging to the local government bodies.

Apart from M2, also data on M0 and M1 are published. The composition of these monetary aggregates is shown in the figure.

Definitions of the Monetary Aggregates

M0 include:

↔ Currency in Circulation (e);

M1 includes:

↔ M0;
↔ Transferable Deposits in DC's (Sight Deposits);

M2 includes (also called **BROAD MONEY**):

↔ M1;
↔ Other Deposits in DC's (Time and Saving Deposits);

Foreign and domestic assets/liabilities

The breakdown of assets (and liabilities) is a notion which shows the financial relationship between the domestic economy and the rest of the world. In the case that country has more financial claims on the rest of the world, it is said to have net foreign assets. In contrary, country has net foreign liabilities.

The definition of "external" is based on the first counterpart. This means that deposits in domestic or foreign currency by a resident at the domestic bank are domestic claims (or assets) of the deposit holder. The same deposits held at banks outside the Kosovo are foreign claims for the deposit holder. The investment by a domestic resident in shares or bonds issued by domestic entity creates a domestic claim, while a similar investment in securities issued by a foreign entity constitutes foreign claims. Currency notes in hand or in vault do form a claim on the issuer of the currency notes (as it was the case in the previous example on bonds). If it concerns notes issued by a foreign central bank, for instance a national central bank of the Eurosystem, held by a resident, the holder has a foreign claim on that foreign central bank.

Compilation of "cash holdings" are mainly estimated on the basis of the volume of conversions into Euro notes and coins at the time of the introduction of the euro in 2001 and since then continued on the basis of shipments (export and import) of Euro-notes via the financial system. The method does not take into account export and import of notes via other channels and may lead to an incorrect picture of the true cash holdings in the domestic economy.

The deposits in process are allocated to current accounts of domestic households and current accounts of domestic enterprises according to their mutual importance.

Assets and liabilities in currencies other than Euro are converted against the Euro exchange rate prevailing at the end of month.

There is no seasonal adjustment calculation.

In principle the first publication is definitive. In the case that the data need to be revised, new statistical series will be published.

TABLE 13: INTERBANK CLEARING SYSTEM

The Interbank Clearing System (ICS) is established, regulated and managed by the BPK. It started with operation in May 2001. The ICS is an electronic clearing and settlement service for payment orders among banks and the BPK, and with the BPK as an agent of the PISG (Ministry of Finance and Economy) of Kosovo. It offers end of day net settlement on accounts at the BPK for single orders and/or bulk paper listings of multiple orders such as mass salary payments. The service permits the exchange of electronic data delivered via telephone lines to the BPK electronic clearinghouse. Currently there are seven commercial banks participating at the ICS, and BPK itself, which acts as a fiscal agent for the Ministry of Finance and Economy. ICS operates based on Operating Rules for Electronic Interbank Clearing and Settlement Service (EICS) of the BPK.
