EXPLANATORY NOTES	55

EDITORIAL

Banking and Payments Authority of Kosovo is continuing an effort in providing to the public information on the main developments in the financial sector and other sectors on a monthly basis. A significant progress has been made in improving financial sector statistics, especially related to the banking sector and other financial corporations in order to have a consolidated picture on financial developments in Kosovo. In addition, there is ongoing work in the compilation of Balance of Payments Statistics (initially on a yearly basis) that would enhance the statistical coverage and narrow the existing information gap regarding the developments in Kosovo economy.

This issue, as previous ones, assesses the main developments on a quarterly basis. A greater emphasis has been put on developments in the financial sector and some attention is paid to other sectors as well. However, lack of quarterly data on the real and foreign sector is the main obstacle in making more detailed assessment.

Since the Kosovo is euroized and the main trading partner are members of the European Union (EU), we devoted some attention to the main developments in the euro area. The remainder of the assessment contains quarterly analysis of the financial sector from the survey perspective, followed by developments in the commercial banking sector. Also some developments in the fiscal, real and foreign sector are described.

EURO AREA¹

Real Gross Domestic Product (GDP) improved in the second half of 2005. According to Eurostat flash estimates, GDP for the third quarter of 2005 shows an increase of 0.6% compared to the previous quarter. Whereas, in comparison with the same quarter of 2004, GDP increased by 1.6%. Private consumption increased by 0.3% and as such, contributed by 0.2 pp to the GDP growth. Government consumption increased by 0.6% and contributed to the GDP change by 0.1 pp. With quarterly increase of 1.6%, gross fixed capital formation contributed to the GDP by 0.3%. As of October 2005, the estimate of the trade balance for the euro area revealed a deficit of EUR 1.2 billion and the current account a deficit of EUR 9 billion. Current account deficit was mainly driven by deficit income (EUR 7.4 billion) and current transfers (EUR 4.4 billion), slightly offset by a surplus in services (EUR 2.6 billion).

During the Q4 2005 the euro area annual Harmonized Index of Consumer Prices (HICP) inflation decreased continuously reaching at 2.2% from 2.6% at the end-Q3 2005. The highest inflation rates were recorded by housing (5.1%), transport (4.5%), and alcohol and tobacco (2.7%), while the decline was observed by communication (-2.8%). The core inflation rate (HICP excluding energy and unprocessed food) was 1.4% by end-Q4 2005, corresponding to a slight decrease from 1.5% at end-Q3 2005. Commodity markets in Q4 2005 were still identified by high oil prices, but not as high as in late-August/early-September 2005. The price of Brent crude stood at 62.2 USD/barrel, only 8% below the peak levels mentioned, but still 56% higher than early 2005.

Euro depreciated against the US dollar during Q4 2005, decreasing to around 1.19 USD from the average of 1.22 USD in Q3 2005. The nominal effective exchange rate of the euro compared to its 23 main trading partner currencies was 2% lower than its average level throughout 2005.

Starting from 6 December 2005, European Central Bank (ECB) decided to increase policy interest rates by 25 basis points (bp), so minimum bid rate raised from 2% to 2.25%. In October 2005, interests rates on long-term deposits for both, households and non-financial corporations, increased by 10 bp (to 2.16% from 2.06%) and 39 bp (3.37% from 2.98%), respectively. In contrast, long-term rates on loans to non-financial corporations declined by 9 bp (3.78% from 3.87%), whereas interest rates on loans to households remained unchanged. In Q4 2005 10-year government bond yield stood at 3.42%, on average, while 5-year bond yield was 3.01%, showing increase to the previous quarter.

¹ The description of the recent developments in Euro area is based on ECB Monthly Bulletin 01/2006 and Economic and Financial Affairs, www.europa.eu.int. Some indicators for the fourth quarter of 2005 are not yet released, while the data for the external sector and interest rates are only available for October 2005.

FINANCIAL SECTOR

Standing at EUR 662.5 million at the end of Q4 2005, the NFA of the financial corporations have shown the increase compared to the same quarter of last year, by 3.6%. Whereas compared to previous quarter NFA decreased by 0.3%. Standing at EUR 749.8 million in Q4 2005, claims on nonresidents experienced an inconspicuous increase of 0.01%. Hence, quarterly change of the NFA occurred mainly due to the 2.5% growth of liabilities to nonresidents.

Figure 1 shows that the share of BPK and ODCs NFA to total financial corporations NFA changed very slightly. Also, the negative contribution of the OFCs NFA increases to some extent since the OFC liabilities to nonresidents increased by 2.7%.

Deposits with the share of 56.4%, represents the main instrument in the claims on nonresidents. Compared to Q3 2005, the share increased by 6.4 pp, while it decreased by 13.3 pp with respect to Q4 2004. On the other hand, the share of securities (invested abroad) experienced increase by 3.5 pp in quarterly basis and yearly increase by 13.5 pp.

At end 2005, loans from nonresidents stood at EUR 65.8 million from EUR 61.7 million and EUR 34.1 million in Q3 2005 and Q4 2004, respectively. Their share in the liabilities to nonresidents accounted for 75.4% or 2.9 pp higher than in Q3 2005. Deposits, as the second component of the liabilities to nonresidents decreased by 8.3% amounting EUR 21.5 million at Q4 2005.

The financial corporations domestic claims (EUR 351.9 million) at end 2005 experienced the highest increase over the year. Due to the considerable increase in the claims on real sector, domestic claims were 24.9% and 71.1% higher relative to Q3 2005 and Q4 2004, respectively. While in the year-on-year perspective, liabilities to the fiscal sector represents broadly a stable figure, claims on the real sector increased 37.0%.

Broad money (M2) stood at EUR 1.166 million, increasing with 0.9% and 3.7% compared to Q3 2005 and Q4 2004, respectively. Throughout the year 2005 the growth of M2 was mainly supported by the contribution of other deposits (+9.3%), while M1 showed a continuous decrease (contributing by -5.7%) due to the drop of currency outside depository corporations (see figure 3).

Other deposits (around 60% of total) increased by 25.4% over the Q4 2004. At the same time, currency outside depository corporations dropped by 26.7% over Q4 2004 and, as such, had a negative contribution (-15.2%) to total monetary aggregate M1. This fall of the currency was partly offset by the positive contribution of the transferable deposits (+6.2%) resulting in the total decrease of the M1 in Q4 2005 by 9.0% (yearly basis).

Developments in the banking sector

During Q4 2005, commercial banks expanded their network with 6 new banking units attaining 224 units in total, what obviously resulted in the increase of staff number. Total number of employees by end-2005 reached 2341 (from 2285 in Q3).

Financial sector in Kosovo is continuing to be dominated by the banking sector. In particular, by the end of last quarter of 2005 assets of the banking sector amounted to EUR 983.5 million, which corresponds to an increase by 5.8% compared with Q3 or 21.0% compared with the same quarter of 2004.

The composition of the assets of commercial banks (figure 4) experienced slight changes during Q4 2005. Making up 13.5% of total assets, cash and balances with BPK grew with 10.6% compared with Q3 2005 and amounted to EUR 132.9 million at end 2005. Similarly, balances with other banks attained EUR 221.9 million (of which 86.9% with nonresident banks), representing an increase by 18.6% compared with Q3 2005 (composing 22.6% of total assets). In the contrary, commercial banks decreased their investments in securities by 24.2% which at end 2005 amounted to EUR 82.9 million. Following this decrease, investments in securities made up 8.4% of total assets at end 2005 from 11.8% in Q3 2005.

The major counterpart to the reduction in investments in securities was the increase in lending activity. Hence, at end 2005, loans granted to the domestic economy increased with 7.7%, amounting to EUR 513.8 million. As a result, loans generated the largest contribution of 4.0% to the growth of total assets.

The largest share of loans (75.5%) was directed towards non-financial corporations which at end 2005 amounted to EUR 387.8 million, representing an increase by 9.5% compared with Q3 2005. On the other hand, lending activity towards households grew with 2.5% during Q4 2005 compared with 10.0% in Q3 2005 and amounted to EUR 125.9 million.

With regard to maturity structure of loans, in Q4 2005 loans with maturities of up to 1 year accounted for 26.7% of total loans (down from 27.3% in Q3 2005 - figure 5). In terms of their volume they increased by

5.6% compared with Q3 2005 or 7.9% compared with end 2004. In contrast, loans with maturities of over 1 year and up to 2 years accounted for 28.5% of total loans amounting to EUR 146.3 million (an increase by 7.8% compared with Q3 2005). Loans with maturities of over 2 years amounting to EUR 230.1 million grew with 9.0%. In Q4 2005 their share reached 44.8% of total banking sector loans.

The largest share of loans was directed towards trade sector increasing with 7.3% and accounted for 51.8% of total. Another increase was recorded by loans granted to industry (35.0%) which at end 2005 represented 10.0% of total loans. Loans granted to the agriculture represented 2.6% of total loans and at end 2005 attained EUR 11.9 million.

Amounting to EUR 835.9 million in Q4 2005, total deposits at the commercial banks in Kosovo maintained the similar share (85.0%) to total liabilities compared to Q3 2005.

Other deposits (time and savings), as the largest component of the total deposits (62.8%), grew with 10.4% compared to the previous quarter. This was accompanied by a slight decrease of transferable deposits (-1.7%), lowering their share to total deposits to 35.4% (-2.7 pp).

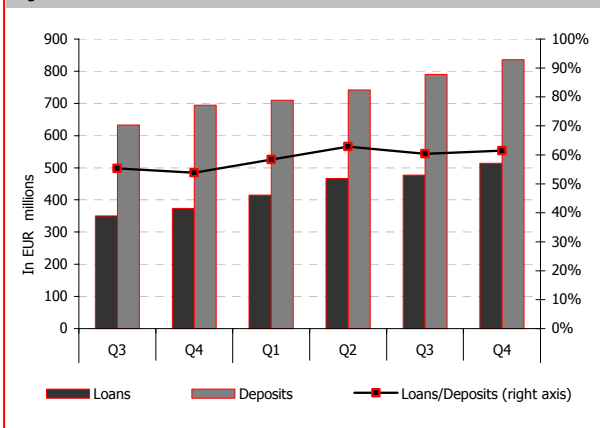

Accounting for 53.8% of total deposits, household deposits grew with 7.3% and at end 2005 amounted to EUR 466.2 million. Deposits of non-financial corporations experienced a decrease in terms of their share to total deposits from 36.7% in Q3 to 35.6% in Q4 2005. Deposits of financial corporations made up 6.7% of total deposits (up from 6.5% in Q3 2005); while government sector deposits made up negligible 0.3% of total deposits in the banking sector in Kosovo. The remaining share of total deposits accounted for deposits of non-residents and NPISH.

Figure 6. The Composition of Banks' Deposits

During the Q4 2005 interest rates ranged between 2.10% and 4.57% for deposits received and between 12.17% and 15.52% for loans granted. With respect to Q4 2004, interest rates on deposits increased by 0.2 pp on average, whereas interest rates on loans decreased by 0.3 pp. However, there was no significant change with respect to Q3 2005.

Figure 7. ODC Claims and Liabilities

As indicated in figure 7, during Q4 2005 the liquidity position of commercial banks remains stable. Specifically, the ratio of loans to deposits at end 2005 went up to 61.5% from 60.3% in Q3 2005. The increase in the ratio was attributed mainly to the faster increase in loans (7.7%) associated with a moderate growth in deposits (5.8%).

At the end of Q4 2005, **other financial intermediaries** managed around 27,100 loans, with total outstanding amount of EUR 51.7 million (accounting for 9.1% of total FC loans). Compared with the Q4 2004, number of loans and total amount increased by 21.7% and 29.7%, respectively.

With respect to Q3 2005 and Q4 2004, assets of the **Kosovo Pension Saving Trust** in Q4 2005 grew by 14.1% and 73.1%, respectively. Their total amount stood at EUR 143.7 million, of which 95% are invested

abroad in mutual funds managed by foreign financial institutions: ABN AMRO and Vanguard.

FISCAL SECTOR

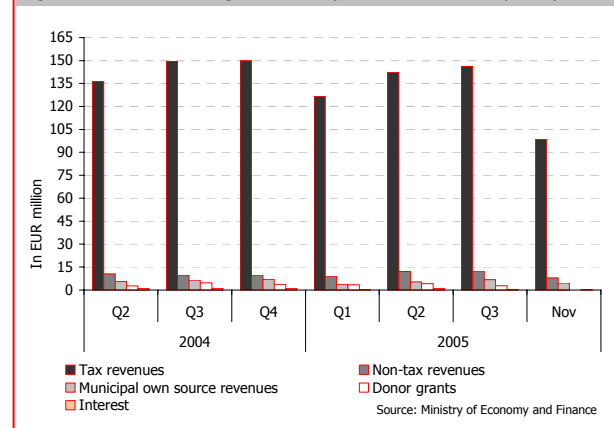

As of November 2005 (cumulative basis) government revenues reached EUR 588.7 million with expenditures amounting EUR 572.8 million. This shows a surplus of EUR 15.9 million. However, there is squeeze in the surplus (compared with the July) when amounted EUR 40.9 million.

Figure 9. Government Budget Balance (cumulative within the year)

The revenue components maintained the similar share as in previous year (figure 10). The main component remains tax revenues, composing the 87.3% of total revenues. Border taxes totaled EUR 399.6 million, accounting 77.7% of total tax revenues. The rest of tax revenues is realized by domestic taxes. Second category, non-tax revenues, at end of November 2005 amounted to EUR 41.5 million (7.0% of total revenues). Remaining, municipal own source revenues, donor grants, and interest, altogether accounts for 5.6% of revenues.

Figure 10. Structure of Budget Revenues (cumulative within the quarter)

In yearly basis, expenses were increased for 'wages and salaries' (12.7%) and 'subsidies and transfers' (10.4%). The wages and salaries in November 2005 comprised 30.5% of expenditures (5.2 pp higher compared to

November 2004). This was balanced by the decrease in the expenses for 'goods and services' (27.7%) and capital outlays (21.2%). 'Goods and services' decreased also as share to total from 26.0% in the year before to 20.1% in November 2005.

Prices

The consumer price index in December 2005 changed for 0.9% compared on a monthly basis (t-1). Whereas yearly change in CPI experienced a positive change of 2.6%. The Q4 2005 is identified with the positive percentage change of CPI on yearly basis, what is not the case on the previous quarters of year 2005 and of the same quarter of last year.

This increase in CPI was mainly attributed to the tobacco (+16.8%), transport (+7.1%) and food (+4.2%). The negative change is recorded for the prices of education (-6.1%), non-alcoholic beverages (-4.1%) and clothing and footwear (-3.4%).

Registered Unemployment

According to the Kosovo Employment Office, registered unemployment reached 318 thousand or 2,360 more than at Q3 2005.

Hence, the registered unemployment is higher for 5.3% compared to Q4 2004. There is no change regarding the gender structure of the jobseekers. Females account for around 46% of total jobseekers. The same stands for the educational classification of jobseekers. Particularly, jobseekers with elementary school compose the largest share (63.5%), followed by jobseekers with secondary school (35%) and with university degree represented with a mere 1.5% to total jobseekers.

Privatization

In the fourth quarter of year 2005 Kosovo Trust Agency announced 4 new waves of privatization (wave: 9, 10, 11, and 12), but the bid results were announced only for the 9th wave. Amount to be accumulated from this wave is around EUR 19.4 million, through privatization of 13 companies (one through special spin-off).

Hence, according to the bid results till the end-year 2005 around 158 companies are to be privatized (of which 8 through special spin-off). The total revenues are expected to reach the amount of EUR 176.2 million.

EXTERNAL SECTOR

Even increased slightly in Q4 compared to Q3 (+0.2 pp), the ratio of exports to imports stands at 4.0%. However, this ratio dropped by 1.3 pp with respect to the same quarter of last year. The imports during Q4 2005 reached the amount of EUR 317.3 million with exports totaling EUR 14.5 million.

As depicted in the figure 14, till December 2005 about 43.7% (EUR 517.8 million) of total goods imported correspond to the mineral products (+23.2% increase); prepared foodstuffs, beverages and tobacco (+3.8% increase); machinery, appliances and electrical equipment (+13.8% increase).

With respect to the trading partners, European Union (EU) maintains the largest share in total Kosovo imports. At the end of Q4 2005, EU composed 34.5%, which is 0.9 pp lower compared to December 2004. With the amount of EUR 129.4 million, imports from Germany hold the highest share (31.6%) to imports from EU. Imports from Macedonia remain the highest contributor of the total imports with their 18.5% share. This represents an increase by 4.4 percentage points compared to the same period of the previous year. Whereas the imports from Serbia and Montenegro show the highest increase in yearly basis (129.4%) reaching 14.1% of total imports. Another increase (+62.4%) is recorded in the imports from China (composing 4.7% of imports).

Amounting EUR 17.0 million, exports to EU countries hold the largest percentage (35.8%) of total Kosovo exports. Neighboring countries, Macedonia and Albania cover around 31.7% of exports with the amount of EUR 9.9 million and EUR 5.2 million, respectively (cumulative basis). Compared on yearly basis, exports to Albania show the enormous increase by 190.5%, with their contribution to the total growth of exports by 6.0%.

Compared to the end of Q3, in Q4 2005 total exports show no significant changes, regarding the percentage share of the specific goods exported. Basic components of Kosovo exports remain base metals accounting for 49.6% of exports, or only 0.4 percentage points lower than in Q3 2005 (14.6 percentage points higher than same period last year). Hides, skins, leather and related accounted for 12.6% of total exports, which is only 0.1 percentage points lower compared with end Q3 2005. Prepared foodstuffs, beverages and tobacco amounted at EUR 4.1 million or 8.7% of total exports.

1/ ODC figures till May 2004 include all nonfinancial corporations; 2/ Till May 2004 figure for households includes NPISH;

* While till May '04 the money holding sector consisted of the non financial corporations and the households, since June '04 the money holding sector has been extended with the general government excluding central government and the financial sector excluding depository corporations. Deposits belonging to broad money are transferable deposits and deposits with an original maturity of 2 year or less, while previously no maturity limit was applied. Both changes in the money definition create a definitional break in the time series.

1/ Till May 2004 includes all nonfinancial corporations;

2/ Till May 2004 figure for households includes NPISH.

* While till May '04 the money holding sector consisted of the non financial corporations and the households, since June '04 the money holding sector has been extended with the general government excluding central government and the financial sector excluding depository corporations. Deposits belonging to broad money are transferable deposits and deposits with an original maturity of 2 year or less, while previously no maturity limit was applied. Both changes in the money definition create a definitional break in the time series.

EXPLANATORY NOTE

TABLES 2-14: FINANCIAL SURVEY AND BALANCE SHEETS FOR THE FINANCIAL SECTOR

The *financial surveys*, inspired on the IMF-Manual on Monetary and Financial Statistics, are a subset of the financial accounts in the SNA 1993 and are based mainly on *balance sheets*, which are also published.

Sources:

BPK: Accounting system; *Other depository corporations* (these are commercial banks): monthly Statistical Bank Report (SBR) based on BPK-Amended Rule XI on Reports by the banks (Form Nr. 11); *Insurance companies*: Aggregated data from reporting scheme to the Insurance Supervision Department of BPK; *Pension Funds and Other financial institutions*: aggregated data from reporting to the Pension Supervision Department and Banking Supervision Department of BPK.

Classifications:

Institutional sectors (SNA 1993 compatible). The economy is composed of economic units, which may be defined as economic entities that are capable, in their own right, of owning assets, incurring liabilities and engaging in economic activities and in transactions with other entities. The institutional sectors group similar kinds of institutional units. BPK has used the scheme presented below.

<p>A. Domestic economy</p> <p><i>Non-financial corporations</i> Public non-financial corporations Other non-financial corporations</p> <p><i>Financial Corporations</i> Central bank Other depository corporations Other financial corporations <i>Insurance companies</i> <i>Pension funds</i> <i>Financial auxiliaries</i> <i>Other financial institutions</i></p> <p><i>General Government</i> Central government Local government Social security funds</p> <p><i>Households</i> <i>Non-profit institutions serving households</i></p> <p>B. Rest of the world.</p>
--

The **financial corporations** sector consists of all resident corporations or quasi-corporations principally engaged in financial intermediation or in auxiliary financial activities, which are closely related to financial intermediation.

The Banking and Payments Authority of Kosovo (BPK) complies not entirely with the definition of a monetary authority, as it issues no banknotes. In the financial surveys the "*BPK*" is mentioned instead of 'central bank'.

Other depository corporations (ODC): In Kosovo these are the commercial banks licensed in Kosovo, numbering actually 7 institutions.

Other financial intermediaries (OFI) consist of all resident corporations engaged in financial intermediation except depository corporations, insurance corporations and pension funds (cf infra). In the financial surveys on Kosovo, this sub-sector is composed entirely by the 'Micro Finance Institutions' and the 'Other non-bank

financial institutions'. These financial institutions are engaged in lending to small scale business and individuals, mainly in rural areas and the funding is provided mainly by donors.

Insurance companies (IC) consist of incorporated, mutual and other entities whose principal function is to provide life, accident, sickness, fire or other forms of insurance to individual institutional units or groups of units.

Pension Funds (PF) are established for purposes of providing benefits on retirement for specific groups of employees and consist of:

- *Individual Savings Pension managed by KPST complemented with additional voluntary contributions paid by the employer or the employee, or both;*
- Supplementary Employers Pensions, provided to employees by their employer;
- Supplementary Individual Pensions, provided to natural persons from licensed pension provider.

Financial auxiliaries. In Kosovo this sub-sector comprise the exchange offices and money transfer services. As their contribution to the outstanding amounts of deposits with the other financial institutions in Kosovo is limited, their position is, in contrast to the financial sub-sectors mentioned before, not presented separately in the final surveys.

Remarks: Due to the lack of an operational enterprise register, the reporting agents do allocate the unincorporated business to the sector of the non-financial corporations. This leads to a blurred distinction between households and non-financial corporations in the statistics. *Non-profit institutions serving households (NPISH)* comprise religious societies and social, cultural, recreational and sports clubs, charities, relief and aid organizations financed by voluntary transfers in cash or in kind from other institutional units.

Financial instruments (SNA 1993 compatible)

The SNA 1993 classifies also financial instruments into groups of instruments with similar characteristics. The most important in the current context are briefly described.

Currency and deposits consist of *Currency* comprises those notes and coins in circulation; *Transferable deposits* comprise all deposits that are exchangeable on demand at par, , freely transferable by check; *Other deposits* include all claims, other than transferable deposits, on the central bank, other depository institutions. Typical forms of deposits are non-transferable savings deposits and term deposits. Within the framework of the definition of money aggregates a further distinction according the original maturity has been made.

Securities other than shares include bills, bonds, certificates of deposit, commercial paper traded in the financial markets. These kind of financial assets do not yet appear on the liability side of the financial sector in Kosovo.

Loans include all financial assets that are created when creditors lend funds directly to debtors and evidenced by non-negotiable documents.

Shares and other equity comprise all instruments and records acknowledging, after the claims of all creditors have been met, claims to the residual value of corporations.

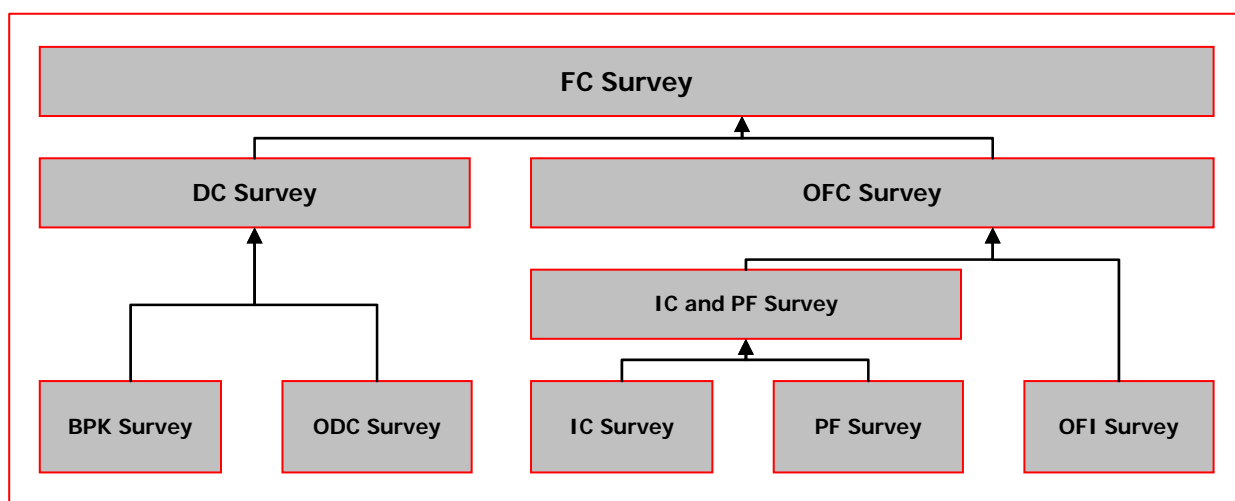

Insurance technical reserves are subdivided in *Net equity of households in life insurance reserves and pension funds.* Life insurance reserves are considered assets of the insured persons or households and pension funds consist of the reserves held by funds established by employers and/or employees to provide pensions for employees after retirement; *Prepayments of premiums and reserves against outstanding claims.* Insurance premiums are due to be paid at the start of the period covered by the insurance, and this period does not normally coincide with the accounting period itself. Therefore parts of the insurance premiums payable during the accounting period are intended to cover risks in the subsequent period;

Reserves against outstanding claims are reserves that insurance enterprises hold in order to cover the amounts they expect to pay out in respect of claims that are not yet settled or claims that may be disputed.

Other accounts receivable/payable, mainly consist of accounts receivable and payable, other than those described previously value of corporations.

Definition(s) and Methodological notes:

The bilateral positions of the individual institutions are netted out and subsequently the bilateral positions between the sub-sectors at different stages are netted out leading to a **consolidated position** of the entities considered. This differs substantially from a simple aggregation. The consolidation is complete as far as it concerns the traditional financial instruments. The data available do not permit for an adequate consolidation of the accruals and most of the other payables/receivables for which the data reported by individual financial institutions does not contain a breakdown of the counterparts by institutional sub-sector. For the consolidation the following sequence is applied.

- FC Financial Corporations;
- DC Depository Corporations;
- BPK Banking and Payments Authority of Kosovo;
- ODC Other Depository Corporations;
- OFC Other Financial Corporations;
- OFI Other Financial Intermediaries;
- IC Insurance Companies;
- PF Pension Funds;

The surveys of the sector and the sub-sectors are presented according to a common framework:

Net foreign assets (+/-)
Claims by instrument
Liabilities by instrument
Domestic claims
Net claims on government sector
Claims on other sub-sectors
Instrument
Counterpart (institutional sector)
Domestic liabilities
Claims on other sub-sectors
Instrument
Counterpart (institutional sector)
Shares and other equity
Other items (+/-), including consolidation adjustment

The **counterpart** is defined as the institutional sector on which the holder of an instrument has a claim. In case of a term deposit by a non-financial corporation with a commercial bank, the corporation has a claim on the commercial bank. In case of a security, the holder has a claim on the issuer of the security (for instance a corporation who issued shares), regardless from whom it was bought. Along the same lines of reasoning, a

holder of a currency note has a claim on the issuer, namely a central bank. In the special case of Kosovo, this implies that holders of euro-currency notes do have a foreign claim and enters in the foreign assets.

The **residency** criteria set forward by the SNA 1993 can not be followed in all details, as the residency /non-residency dichotomy is mainly based on address information in the files of the reporting institution. The country indicated in those files does not necessarily correspond with the country where the client has its main center of economic interest.

The **valuation** of the financial instruments follows the market value for securities and the nominal value for deposits and loan, which are not adjusted for possible provisions made by the creditor. The financial instruments in foreign currencies, other than euro, are converted against the euro exchange rate prevailing at the end of the reporting period.

The surveys on BPK, "Other depository corporations" and 'Depository corporations' are established at monthly **frequency**, while those on "Other financial intermediaries", "Insurance companies", "Pension funds" and "Financial corporations" are available at a quarter frequency. The data published are not adjusted for eventual seasonal effects.

Remarks: *The data on the Supplementary Individual Savings Pension schemes managed by KPST are not yet made available by KPST. The data structure on Other Financial Institutions is based on their annual accounts structure.*

The **Monetary aggregates** are an integral part of the surveys and are defined as:

Currency in circulation

M0

Transferable deposits [1]

M1 = M0 + [1]

Other deposits with original maturity up to 2 years [2]

Broad money = M1 + [2]

Under the old money definitions, due to lack of data, only currency in circulation and deposits, regardless the maturity, in euro and other currency, held by the non financial sector and the households were considered. Now the money-holding sector is defined in accordance with international standards comprising all domestic sectors except the depository corporations and the central government. At the same time only deposits with an original maturity of 2 years or less belong to the money boundary. This double change in definition makes it impossible to reconstitute coherent back data.

Due to different constraints the estimation of currency in circulation for Kosovo is even more difficult than in other economies and an estimate of the amount of currency in circulation has to rely on hypotheses based on macroeconomic behavior. As a *principle* the annual growth of the broad liquidity in the economy is taken as the reference. Broad liquidity is defined as broad money, of which only deposits can be observed directly. The currency in circulation will be a function of the amount of the deposits, as they form the complement within broad money.

Additional information: see Monthly Statistics Bulletin, BPK, November 2004.

TABLE 19: EFFECTIVE INTEREST RATES APPLIED BY COMMERCIAL BANKS

Source: BPK-survey 'Interest Rate Report' among all commercial banks licensed in Kosovo.

Definitions and nature of the data collected: The main features are listed here below:

1. Reporting institutions	All commercial banks licensed in Kosovo
2. Financial instruments	Loans Deposits
3. Currency denomination	EUR only
4. Frequency	Monthly
5. Counterparts	All domestic non financial corporations; All domestic households
6. Reported contracts	New business during the reference month / outstanding amount (depending on the type of financial instrument, cf. infra)
7. Type of interest rates	Annual interest rate not including any fees nor commissions
8. Method of calculation	Annual agreed rate or Actuarial rate (depending on features of the specific contract, cf. infra)
9. Reported rate and volume	<ul style="list-style-type: none"> - One interest rate by category averaged with the weights of the new business of the reference month or outstanding amounts (depending on the type of financial instrument - cf. infra) and; - the total new business volume or outstanding amounts (depending on the type of financial instrument - cf. infra). <p>A category is defined by 5 variables and forms the combination of:</p> <ul style="list-style-type: none"> - the type of financial instrument; - the sector allocation of the counterpart; - the maturity band and; - the range of amount involved; - the purpose of financing in the case of loans

The annual rate to be reported by the commercial banks is the annual agreed rate (AAgR) or the annual actuarial rate (AAcR).

The *Annual Agreed Rate* (AAgR) is to be reported in all cases where there is no capitalization or the capitalization follows a regular pattern or the interest is charged on the remaining outstanding capital and no grace periods for interest payments or capital redemption are granted.

In all other cases the *Annual Actuarial Rate* (AAcR) has to be reported. This is the annual interest rate equaling the discounted (actualized) future cash inflows to the nominal amount of the loan or deposit.

The interest rate communicated by the commercial banks takes account of the interest rate on all individual transactions during the reference period, with 2 two exceptions : for saving deposits and current accounts, the interest is calculated by the bank as:

- the interest rate on each outstanding contract at the end of the reference month, weighted with the outstanding amount of the contract at the end of the reference period, or;
- the cumulative interest flows (accrued interest) over the month divided by the average of the daily outstanding amounts.

IRR-statistics: a simple arithmetic average of interest rates communicated by banks completed with the standardized variance as a measure of the distribution around the calculated simple.

Additional information: see Monthly Statistics Bulletin, BPK, November 2004.

TABLE 21: INTERBANK CLEARING SYSTEM

The Interbank Clearing System (ICS) is established, regulated and managed by the BPK. It started with operation in May 2001. The ICS is an electronic clearing and settlement service for payment orders among banks and the BPK, and with the BPK as an agent of the PISG (Ministry of Finance and Economy) of Kosovo. It offers end of day net settlement on accounts at the BPK for single orders and/or bulk paper listings of multiple orders such as mass salary payments. The service permits the exchange of electronic data delivered via telephone lines to the BPK electronic clearinghouse. Currently there are seven commercial banks participating at the ICS, and BPK itself, which acts as a fiscal agent for the Ministry of Finance and Economy. ICS operates based on Operating Rules for Electronic Interbank Clearing and Settlement Service (EICS) of the BPK.

TABLE 22: FOREIGN TRANSFERS

OUTGOING: The movement of money from account of bank or other financial corporation within Kosovo to the account in bank or other financial corporation accounts outside Kosovo.

INCOMING: The movement of money from an nonresident bank or other financial corporation account in the bank or financial corporation account within Kosovo.

WIRE TRANSFERS AGENCIES: All non-bank financial institutions performing electronic or wire transfer services (Union financiar Prishtina, Western Union PCB, Western Union RZB, Monedha).

TABLE 27: FISCAL SECTOR

PAYMENTS TO HOUSEHOLDS: Starting from 2002, payments to households are included within subsidies and transfers.

RESERVES: Reserves include amounts authorized for contingent expenditures that may be used only for urgent and unforeseen requirements.

TABLES 31-33: EXPORTS AND IMPORTS

Harmonized System Coding System used in the presentation of external trade statistics by commodity group:

- I Live animals; animal products;
- II Vegetable products;
- III Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes;
- IV Prepared foodstuffs; beverages, spirits and vinegar; tobacco and manufactured tobacco substitutes;
- V Mineral products;
- VI Products of the chemical or allied industries;
- VII Plastics and articles thereof; rubber and articles thereof;
- VIII Raw hides and skins, leather, furskins and articles thereof; saddlery and harness; travel goods, handbags and similar containers; article of animal gut (other than silkworm gut);
- IX Wood and articles of wood; wood charcoal; cork and articles of cork; manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork;
- X Pulp of wood or of other fibrous cellulosic material; waste and scrap of paperboard; paper and paperboard and articles thereof;
- XI Textiles and textile articles;
- XII Footwear, headgear, umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof; prepared feathers and articles made therewith; artificial flowers; articles of human hair;
- XIII Articles of stone, plaster, cement, asbestos, mica or similar materials; ceramic products; glass and glassware;

- 
- XIV Natural or cultured pearls, precious and semi-precious stones, precious metals, metals clad with precious metal and articles thereof; imitation jewelry; coin;
 - XV Base metals and articles of base metal;
 - XVI Machinery and mechanical appliances; electrical equipment; parts thereof; sound recorders and reproducers, and part and accessories of such articles;
 - XVII Vehicles, aircraft, vessels and associated transport equipment;
 - XVIII Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; clocks and watches; musical instruments; parts and accessories thereof;
 - XIX Arms and ammunition; parts and accessories thereof;
 - XX Miscellaneous manufactured articles;
 - XXI Other.
