2.4. External Sector ----- 17

**3. STATISTICAL TABLES -----19**

3.1. Financial Sector ----- 21

3.2. Fiscal Sector----- 40

3.3. Real Sector ----- 41

3.4. External Sector ----- 42

**EXPLANATORY NOTES -----49**

Table 1.

**Selected Macroeconomic Indicators**

Description	2004	2005
<b>Real growth rates (in percent)</b>		
GDP	4.0	-0.2
Contribution of foreign assistance to GDP growth 1/	-4.4	-1.5
GNDI	6.6	3.3
Private sector disposable income	6.7	4.2
Private sector consumption	3.6	3.4
Consumption as a share of disposable income	91	92
Commercial imports	1.1	0.8
GDP per capita	2.3	-1.9
GNDI per capita	4.8	1.5
Private disposable income per capita	4.9	2.4
Private consumption per capita	1.9	1.7
<b>CPI</b>	-2.5	-3.0
<b>General government budget (in percent of GDP)</b>		
Revenues	26.8	28.4
Expenditures	32.8	31.6
Current balance	1.4	3.6
Overall balance	-6.0	-3.2
<b>Savings/investment balances (in percent of GDP) 2/</b>		
National savings	-10.5	-9.1
Domestic savings	-15.6	-17.3
Remittances	14.8	17.0
Factor income from/to abroad	-9.7	-8.7
Investment	28.2	27.1
Current account	-38.7	-36.2
Foreign assistance 3/	23.9	20.9
Current account balance (after foreign assistance)	-14.7	-15.3
<b>Main aggregates (in millions of euros)</b>		
GDP	2,282	2,209
GDP per capita (in euro)	1,161	1,105
GNDI per capita (in euro)	1,221	1,197
Workers' remittances 4/	339	375
Foreign assistance 3/	546	462
Direct contribution of foreign assistance to GDP	208	199
Direct contribution of foreign assistance to GNDI	212	199

Source: IMF Aide Memoire, May 2006.

1/ Based on changes in donor – financed public sector consumption and investment;

2/ Savings/Investment balances of the entire economy, i.e., the domestic sector and the donor sector;

3/ Total foreign assistance excluding capital transfers;

4/ Including pensions from abroad.

## 2. CURRENT DEVELOPMENTS (graphs)-----9

### 2.1. Financial Sector ----- 11

- Broad Money ----- 11
- Financial Corporations Net Claims by Sector ----- 11
- Depository Corporations NFA and Domestic Claims ----- 11
- Growth of the total Deposits at DC and Contributions to the Growth ----- 12
- Sectoral Breakdown of the Deposits at BPK ----- 12
- ODC Foreign and Domestic Claims, as Share of ODC Total Assets ----- 12
- Sectoral Breakdown of the Deposits at ODC ----- 13
- Maturity Breakdown of the Deposits at ODC ----- 13
- Currency Breakdown of the Deposits at ODC ----- 13
- Sectoral Breakdown of the ODC Loans ----- 14
- Maturity Breakdown of the ODC Loans ----- 14
- Ratio of ODC Loans to Deposits ----- 14
- ODC Income and Expenditures ----- 15
- International Money Transfers among Financial Corporations ----- 15
- Insurance Companies Premiums and Paid Claims ----- 15

### 2.2. Fiscal Sector----- 16

- Kosovo Consolidated Budget ----- 16
- Structure of Budget Revenues ----- 16
- Structure of Budget Expenditures ----- 16

### 2.3. Real Sector ----- 17

- Prices (CPI) ----- 17

### 2.4. External Sector----- 17

- Exchange Rate against Euro ----- 17
- Trade Balance ----- 17

## EXPLANATORY NOTES

### TABLES 2-14: FINANCIAL SURVEY AND BALANCE SHEETS FOR THE FINANCIAL SECTOR

The *financial surveys*, inspired on the IMF-Manual on Monetary and Financial Statistics, are a subset of the financial accounts in the SNA 1993 and are based mainly on *balance sheets*, which are also published.

#### **Sources:**

CBAK: Accounting system; *Other depository corporations* (these are commercial banks): monthly Statistical Bank Report (SBR) based on CBAK-Amended Rule XI on Reports by the banks (Form Nr. 11); *Insurance companies*: Aggregated data from reporting scheme to the Insurance Supervision Department of CBAK; *Pension Funds and Other financial institutions*: aggregated data from reporting to the Pension Supervision Department and Banking Supervision Department of CBAK.

#### **Classifications:**

***Institutional sectors (SNA 1993 compatible)***. The economy is composed of economic units, which may be defined as economic entities that are capable, in their own right, of owning assets, incurring liabilities and engaging in economic activities and in transactions with other entities. The institutional sectors group similar kinds of institutional units. CBAK has used the scheme presented below.

<p><b>A. Domestic economy</b></p> <p><b><i>Non-financial corporations</i></b> Public non-financial corporations Other non-financial corporations</p> <p><b><i>Financial Corporations</i></b> Central bank Other depository corporations Other financial corporations <i>Insurance companies</i> <i>Pension funds</i> <i>Financial auxiliaries</i> <i>Other financial institutions</i></p> <p><b><i>General Government</i></b> Central government Local government Social security funds</p> <p><b><i>Households</i></b> <b><i>Non-profit institutions serving households</i></b></p> <p><b>B. Rest of the world.</b></p>
--

The **financial corporations** sector consists of all resident corporations or quasi-corporations principally engaged in financial intermediation or in auxiliary financial activities, which are closely related to financial intermediation.

Central Banking Authority of Kosovo (CBAK) complies not entirely with the definition of a monetary authority, as it issues no banknotes. In the financial surveys the "CBAK" is mentioned instead of 'central bank'.

*Other depository corporations (ODC)*: In Kosovo these are the commercial banks licensed in Kosovo, numbering actually 7 institutions.

*Other financial intermediaries (OFI)* consist of all resident corporations engaged in financial intermediation except depository corporations, insurance corporations and pension funds (cf infra). In the financial surveys on Kosovo, this sub-sector is composed entirely by the 'Micro Finance Institutions' and the 'Other non-bank

financial institutions'. These financial institutions are engaged in lending to small scale business and individuals, mainly in rural areas and the funding is provided mainly by donors.

*Insurance companies (IC)* consist of incorporated, mutual and other entities whose principal function is to provide life, accident, sickness, fire or other forms of insurance to individual institutional units or groups of units.

*Pension Funds (PF)* are established for purposes of providing benefits on retirement for specific groups of employees and consist of:

- *Individual Savings Pension managed by KPST complemented with additional voluntary contributions paid by the employer or the employee, or both;*
- Supplementary Employers Pensions, provided to employees by their employer;
- Supplementary Individual Pensions, provided to natural persons from licensed pension provider.

*Financial auxiliaries.* In Kosovo this sub-sector comprise the exchange offices and money transfer services. As their contribution to the outstanding amounts of deposits with the other financial institutions in Kosovo is limited, their position is, in contrast to the financial sub-sectors mentioned before, not presented separately in the final surveys.

*Remarks:* Due to the lack of an operational enterprise register, the reporting agents do allocate the unincorporated business to the sector of the non-financial corporations. This leads to a blurred distinction between households and non-financial corporations in the statistics. *Non-profit institutions serving households (NPISH)* comprise religious societies and social, cultural, recreational and sports clubs, charities, relief and aid organizations financed by voluntary transfers in cash or in kind from other institutional units.

#### ***Financial instruments (SNA 1993 compatible)***

The SNA 1993 classifies also financial instruments into groups of instruments with similar characteristics. The most important in the current context are briefly described.

Currency and deposits consist of *Currency* comprises those notes and coins in circulation; *Transferable deposits* comprise all deposits that are exchangeable on demand at par, , freely transferable by check; *Other deposits* include all claims, other than transferable deposits, on the central bank, other depository institutions. Typical forms of deposits are non-transferable savings deposits and term deposits. Within the framework of the definition of money aggregates a further distinction according the original maturity has been made.

*Securities other than shares* include bills, bonds, certificates of deposit, commercial paper traded in the financial markets. These kind of financial assets do not yet appear on the liability side of the financial sector in Kosovo.

Loans include all financial assets that are created when creditors lend funds directly to debtors and evidenced by non-negotiable documents.

*Shares and other equity* comprise all instruments and records acknowledging, after the claims of all creditors have been met, claims to the residual value of corporations.

*Insurance technical reserves* are subdivided in *Net equity of households in life insurance reserves and pension funds*. Life insurance reserves are considered assets of the insured persons or households and pension funds consist of the reserves held by funds established by employers and/or employees to provide pensions for employees after retirement; *Prepayments of premiums and reserves against outstanding claims*. Insurance premiums are due to be paid at the start of the period covered by the insurance, and this period does not normally coincide with the accounting period itself. Therefore parts of the insurance premiums payable during the accounting period are intended to cover risks in the subsequent period;

*Reserves against outstanding claims* are reserves that insurance enterprises hold in order to cover the amounts they expect to pay out in respect of claims that are not yet settled or claims that may be disputed.

*Other accounts receivable/payable*, mainly consist of accounts receivable and payable, other than those described previously value of corporations.

**Definition(s) and Methodological notes:**

The bilateral positions of the individual institutions are netted out and subsequently the bilateral positions between the sub-sectors at different stages are netted out leading to a **consolidated position** of the entities considered. This differs substantially from a simple aggregation. The consolidation is complete as far as it concerns the traditional financial instruments. The data available do not permit for an adequate consolidation of the accruals and most of the other payables/receivables for which the data reported by individual financial institutions does not contain a breakdown of the counterparts by institutional sub-sector. For the consolidation the following sequence is applied.

- FC Financial Corporations;
- DC Depository Corporations;
- CBAK Central Banking Authority of Kosovo;
- ODC Other Depository Corporations;
- OFC Other Financial Corporations;
- OFI Other Financial Intermediaries;
- IC Insurance Companies;
- PF Pension Funds;

The surveys of the sector and the sub-sectors are presented according to a common framework:

<p><b>Net foreign assets (+/-)</b>          Claims by instrument          Liabilities by instrument</p> <p><b>Domestic claims</b>          Net claims on government sector          Claims on other sub-sectors              Instrument              Counterpart (institutional sector)</p> <p><b>Domestic liabilities</b>          Claims on other sub-sectors              Instrument              Counterpart (institutional sector)</p> <p><b>Shares and other equity</b></p> <p><b>Other items (+/-), including consolidation adjustment</b></p>
---

The **counterpart** is defined as the institutional sector on which the holder of an instrument has a claim. In case of a term deposit by a non-financial corporation with a commercial bank, the corporation has a claim on

the commercial bank. In case of a security, the holder has a claim on the issuer of the security (for instance a corporation who issued shares), regardless from whom it was bought. Along the same lines of reasoning, a

holder of a currency note has a claim on the issuer, namely a central bank. In the special case of Kosovo, this implies that holders of euro-currency notes do have a foreign claim and enters in the foreign assets.

The **residency** criteria set forward by the SNA 1993 can not be followed in all details, as the residency /non-residency dichotomy is mainly based on address information in the files of the reporting institution. The country indicated in those files does not necessarily correspond with the country where the client has its main center of economic interest.

The **valuation** of the financial instruments follows the market value for securities and the nominal value for deposits and loan, which are not adjusted for possible provisions made by the creditor. The financial instruments in foreign currencies, other than euro, are converted against the euro exchange rate prevailing at the end of the reporting period.

The surveys on CBAK, "Other depository corporations" and 'Depository corporations' are established at monthly **frequency**, while those on "Other financial intermediaries", "Insurance companies", "Pension funds" and "Financial corporations" are available at a quarter frequency. The data published are not adjusted for eventual seasonal effects.

Remarks: *The data on the Supplementary Individual Savings Pension schemes managed by KPST are not yet made available by KPST. The data structure on Other Financial Institutions is based on their annual accounts structure.*

The **Monetary aggregates** are an integral part of the surveys and are defined as:

Currency in circulation

**M0**

Transferable deposits [1]

**M1 = M0 + [1]**

Other deposits with original maturity up to 2 years [2]

**Broad money = M1 + [2]**

Under the old money definitions, due to lack of data, only currency in circulation and deposits, regardless the maturity, in euro and other currency, held by the non financial sector and the households were considered. Now the money-holding sector is defined in accordance with international standards comprising all domestic sectors except the depository corporations and the central government. At the same time only deposits with an original maturity of 2 years or less belong to the money boundary. This double change in definition makes it impossible to reconstitute coherent back data.

Due to different constraints the estimation of currency in circulation for Kosovo is even more difficult than in other economies and an estimate of the amount of currency in circulation has to rely on hypotheses based on macroeconomic behavior. As a *principle* the annual growth of the broad liquidity in the economy is taken as the reference. Broad liquidity is defined as broad money, of which only deposits can be observed directly. The currency in circulation will be a function of the amount of the deposits, as they form the complement within broad money.

**Additional information:** see Monthly Statistics Bulletin, BPK, November 2004.

## TABLE 19: EFFECTIVE INTEREST RATES APPLIED BY COMMERCIAL BANKS

**Source:** CBAK-survey 'Interest Rate Report' among all commercial banks licensed in Kosovo.

**Definitions and nature of the data collected:** The main features are listed here below:

1. Reporting institutions	All commercial banks licensed in Kosovo
2. Financial instruments	Loans Deposits
3. Currency denomination	EUR only
4. Frequency	Monthly
5. Counterparts	All domestic non financial corporations; All domestic households
6. Reported contracts	New business during the reference month / outstanding amount (depending on the type of financial instrument, cf. infra)
7. Type of interest rates	Annual interest rate not including any fees nor commissions
8. Method of calculation	Annual agreed rate or Actuarial rate (depending on features of the specific contract, cf. infra)
9. Reported rate and volume	<ul style="list-style-type: none"> <li>- One interest rate by category averaged with the weights of the new business of the reference month or outstanding amounts (depending on the type of financial instrument - cf. infra) and;</li> <li>- the total new business volume or outstanding amounts (depending on the type of financial instrument - cf. infra).</li> </ul> <p>A category is defined by 5 variables and forms the combination of:</p> <ul style="list-style-type: none"> <li>- the type of financial instrument;</li> <li>- the sector allocation of the counterpart;</li> <li>- the maturity band and;</li> <li>- the range of amount involved;</li> <li>- the purpose of financing in the case of loans</li> </ul>

The annual rate to be reported by the commercial banks is the annual agreed rate (AAgR) or the annual actuarial rate (AAcR).

The *Annual Agreed Rate* (AAgR) is to be reported in all cases where there is no capitalization or the capitalization follows a regular pattern or the interest is charged on the remaining outstanding capital and no grace periods for interest payments or capital redemption are granted.

In all other cases the *Annual Actuarial Rate* (AAcR) has to be reported. This is the annual interest rate equaling the discounted (actualized) future cash inflows to the nominal amount of the loan or deposit.

The interest rate communicated by the commercial banks takes account of the interest rate on all individual transactions during the reference period, with 2 two exceptions : for saving deposits and current accounts, the interest is calculated by the bank as:

- the interest rate on each outstanding contract at the end of the reference month, weighted with the outstanding amount of the contract at the end of the reference period, or;
- the cumulative interest flows (accrued interest) over the month divided by the average of the daily outstanding amounts.

**IRR-statistics:** a simple arithmetic average of interest rates communicated by banks completed with the standardized variance as a measure of the distribution around the calculated simple.

**Additional information:** see Monthly Statistics Bulletin, BPK, November 2004.

#### **TABLE 21: INTERBANK CLEARING SYSTEM**

The Interbank Clearing System (ICS) is established, regulated and managed by the CBAK. It started with operation in May 2001. The ICS is an electronic clearing and settlement service for payment orders among banks and the CBAK, and with the CBAK as an agent of the PISG (Ministry of Finance and Economy) of Kosovo. It offers end of day net settlement on accounts at the CBAK for single orders and/or bulk paper listings of multiple orders such as mass salary payments. The service permits the exchange of electronic data delivered via telephone lines to the CBAK electronic clearinghouse. Currently there are seven commercial banks participating at the ICS, and CBAK itself, which acts as a fiscal agent for the Ministry of Finance and Economy. ICS operates based on Operating Rules for Electronic Interbank Clearing and Settlement Service (EICS) of the CBAK.

#### **TABLE 22: FOREIGN TRANSFERS**

**OUTGOING:** The movement of money from account of bank or other financial corporation within Kosovo to the account in bank or other financial corporation accounts outside Kosovo.

**INCOMING:** The movement of money from an nonresident bank or other financial corporation account in the bank or financial corporation account within Kosovo.

**WIRE TRANSFERS AGENCIES:** All non-bank financial institutions performing electronic or wire transfer services (Union financiar Prishtina, Western Union PCB, Western Union RZB, Monedha).

#### **TABLE 27: FISCAL SECTOR**

**PAYMENTS TO HOUSEHOLDS:** Starting from 2002, payments to households are included within subsidies and transfers.

**RESERVES:** Reserves include amounts authorized for contingent expenditures that may be used only for urgent and unforeseen requirements.

#### **TABLES 34-36: EXPORTS AND IMPORTS**
