Monthly Statistics Bulletin (MSB) is a standard source of statistics on four sectors of the economy. MSB publishes current information on selected macroeconomic indicators for Kosovo, data on financial sector (surveys on financial corporations, balance sheets, income statements, deposits, loans, interest rates, exchange rates, payments system, etc.), data on external sector (balance of payments, international investment position, foreign direct investments, external debt, international trade in goods, etc.), as well as other data on key indicators on the fiscal sector and the real sector. MSB is published on monthly basis.

1/ When the General Government of the Republic of Kosovo agrees for a loan with the IMF, the latter has an external claim on the Central Bank of the Republic of Kosovo (CBK).

The CBK passes on proceeds from the IMF borrowing (e.g. Stand-By Arrangement) to the Kosovo General Government, and consequently:

- The CBK has a domestic financial claim (loan) on the Kosovo Government while the Government has a domestic debt liability to repay (principal and interest).
- The CBK has an external debt liability to repay to the IMF, and may use the debt service payments received from the Kosovo Government to do so.

Table 11.2. CBK balance sheet - liabilities

(EUR million: End of period)

| Description | Total liabilities | | | | | | | | | | | | | |
|--------------|-------------------|-----------------------|-------------------------------|------------------------------|--------------------|-------|-------|----------------|-----------------|-----------------|------------------------|---------------------------|-----------------------------|-------------------------|

Part III. EXPLANATORY NOTES

Based on the Law No. 03/L-074 on the Central Bank of the Republic of Kosovo, also specified in the *Regulation on Monetary - Financial Statistics and Financial Accounts Statistics* and *Regulation on Balance of Payments and International Investments Position Statistics*, CBK compiles and publishes statistics and disseminates information related to statistical methodology. The CBK is also the producer of the official statistics based on the *Law on Official Statistics of the Republic of Kosovo*. Statistics that fall under the scope of the CBK responsibilities are monetary and financial statistics, and external sector statistics (balance of payments statistics, international investments position, and external debt statistics). In addition, the CBK also publishes statistics from other sources such as real and fiscal sector statistics.

Statistics for which the CBK is the official producer and includes them in the Monthly Statistics Bulletin are compiled and published based on international statistical standards of the IMF, ECB, Eurostat, namely: *Monetary and Financial Statistics Manual* (IMF 2000), *Monetary and Financial Statistics Compilation Guide* (IMF 2008), *Balance of Payments Manual* (IMF 1993), *Balance of Payments Compilation Guide* (IMF 1995), *Balance of Payments and International Investment Position Manual* (IMF 2009), Manual on Monetary Financial Institutions Interest Rates (ECB 2003), System of National Accounts (SNA 2008), European System of National and Regional Accounts (ESA 95), etc.

Detailed methodology related to compilation of monetary - financial statistics and balance of payments statistics can be found in the CBK website (www.bqk-kos.org):

- [Monetary and Financial Statistics Methodology](#):
- [Balance of Payments Statistics Methodology](#).

This explanatory note is a brief description of methodology, contents, periodicity and the source of graphs and tables presented in this publication. Explanatory notes contain also information on methodological breaks and implications for the specific items in this bulletin.

Part I: GRAPHS**Graph 1. Financial corporations survey**

Description: Financial corporations sector consists of all resident corporations and quasi-corporations principally engaged in financial intermediation or in related auxiliary financial activities. Data presented in this graph include the CBK, other depository corporations (commercial banks), and other financial corporations (microfinance institutions, insurance companies, pension funds, and financial auxiliaries). Published data are aggregated.

Periodicity: quarterly.

Source: table 3.1, 4.1, and 5.1.

Graph 2. Financial corporations net foreign assets

Description: Net foreign assets are comprised of claims on nonresidents excluding liabilities to nonresidents, and are calculated by deducting the liabilities to nonresidents from claims on nonresidents. In this context are included the CBK net foreign assets, other depository corporations (commercial banks), and other financial corporations (microfinance institutions, insurance companies, pension funds, and financial auxiliaries).

Periodicity: quarterly.

Source: table 3.1, 4.1, and 5.1.

Graph 3. Growth of financial corporations assets

Description: Growth of financial corporations net foreign assets is calculated on annual basis on the level of the CBK, other depository corporations (commercial banks), and other financial corporations (microfinance institutions, insurance companies, pension funds, and financial auxiliaries). The growth of foreign assets of other financial corporations is calculated by consolidating the value of assets of financial corporations and by calculating the annual growth rate.

Periodicity: quarterly.

Source: table 3.1, 4.1, and 5.1.

Graph 4. Sectoral breakdown of deposits at CBK

Description: Sectoral classification of deposits is based on international statistical standards. In Kosovo, other depository corporations are comprised of commercial banks while other financial corporations include insurance companies, pension funds, microfinance institutions, money transfer agencies and exchange bureaus. Deposits of Privatization Agency of Kosovo are presented within the deposits of central government according to the maturity.

Periodicity: monthly.

Source: table 10.2.

Graph 5. Sectoral and currency breakdown of deposits at other depository corporations

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Government deposits include central government deposits (e.g. ministries, etc.) and local governments (e.g. municipalities). Other financial corporations include all financial institutions except the central bank and other depository corporations which are reported separately. Public nonfinancial corporations include public corporations (e.g. PTK, KEK, etc.), whereas other financial corporations comprise private nonfinancial companies. Household category comprises all households holding bank accounts, whereas nonresidents include all nonresidents holding bank accounts in Kosovo. The share of EUR deposits to total deposits is calculated by dividing deposits in EUR currency with total deposits. For more regarding the sectorial breakdown and residency criteria, see [Monetary and Financial Statistics Methodology](#).

Periodicity: monthly.

Source: table 12.1 and 12.5.

Graph 6. Maturity breakdown of deposits at other depository corporations

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Classification of deposits by maturity was performed based on criteria of original maturity (e.g. if in May 2012 there is a deposit of one year maturity, this deposit is reported under the item “up to one year” until the end of maturity). Since 2010, new breakdown of deposits is applied, namely transferable deposits, other deposits (time deposits), and saving deposits. Nevertheless, up to 2009, saving deposits were included within time deposits.

Periodicity: monthly.

Source: table 12.1 and 12.5.

Graph 7. Sectoral breakdown of loans at other depository corporations

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Classification of loans by sector is based on the purpose of loans granted. If the loan was issued to a company, then the loan is classified as a loan to nonfinancial corporation (public or private).

Periodicity: monthly.

Source: table 13.1.

Graph 8. Sectoral breakdown of new loans at other depository corporations

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. New loans include loans extended only within the referring period and as such are classified as flow data (e.g. loans granted in May 2012 represent only loans issued during that month, not including loans issued during previous periods, as is the case with outstanding loans).

Periodicity: monthly.

Source: table 13.2.

Graph 9. Other depository corporations loans by economic sectors

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. The classification of loans by economic sectors was based on NACE classification, which represents the classification of loans by purpose.¹

Periodicity: monthly.

Source: table 13.3.

Graph 10. Maturity breakdown of other depository corporations loans

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Classification of loans by maturity is based on the original criteria (e.g. if in May 2012 were issued loans with one year maturity, these loans are reported under the item “Up to 1 year” until the end of maturity). Starting from 2010 there is a detailed breakdown of loans by maturity. Maturity “over 2 years and up to 5 years” prior to 2010 includes deposits with the original maturity of “over 2 years”.

Description: monthly.

Source: table 13.1.

Graph 11. Other depository corporations loans to deposit ratio and annual growth of loans and deposits

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Growth trend of loans and deposits is performed on annual basis through annual growth formula. The ratio of loans to deposits includes all loans divided by deposits, excluding interbank deposits and loans.

Periodicity: monthly.

Source: table 11.1 and 11.2.

¹ For details on NACE classification visit http://epp.eurostat.ec.europa.eu/cache/ITY_OFFPUB/KS-RA-07-015/EN/KS-RA-07-015-EN.PDF

Graph 12. Interest rates on loans and deposits at other depository corporations

Description: The other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Interest rate on deposits and loans are calculated by using the effective interest rate formula based on arithmetic weighted average. The calculation formula of effective interest rate is as follows:

$$AAR = \left(1 + \frac{AG}{n}\right)^n - 1$$

where AAR stands for annualized agreed rate, AG is the nominal agreed rate among the parties, and n is the number of capitalization periods per year, i.e. $n = 1$ for yearly interest payment (12/12), $n = 2$ for semi-annual interest payment (12/6), $n = 4$ for quarterly interest payments (12/3), and $n = 12$ for monthly interest payments (12/1). Since 2010, there is a detailed breakdown of the banks products in terms of sectors and maturity. Furthermore, since 2010, loans with special conditions are not included in the calculation of the weighted average interest rate.

These are flow data that include new contracts during the respective month. For detailed description on interest rate calculation refer to the [Monetary and Financial Statistics Methodology](#).

Periodicity: monthly.

Source: table 14.1 and 14.2.

Graph 13. Other depository corporations income and expenditures

Description: The other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Revenues category include all incomes from the banking activity, as interest income, non-interest income, etc., whereas within expenditures are included interest expenditures, non-interest expenditures, administrative expenditures (including expenditures of the bank staff). The data are aggregated on the level of other depository corporations. The data are cumulative within the calendar year (e.g. the data of January 2012 include the data only for January 2012, whereas the data as of May 2012 include the data from January 2012 up to May 2012).

Periodicity: Monthly

Source: table 15.1

Graph 14. Growth of income at other depository corporations income and contribution to the growth

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. The income growth is calculated by using cumulative amounts within the calendar year, through the growth formula. In order to identify the contribution of each component, the contribution formula is used (percentage point):

$$\text{Percentage point} = \frac{(g_0 - g_{-1})}{z_{-1}} * 100$$

where the variable g is part of the variable z .

Periodicity: monthly.

Source: table 15.1.

Graph 15. Growth of expenditures at other depository corporations expenditures and contributions to the growth

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Expenditure growth is calculated by using cumulative amounts within the calendar year, through growth formula. In order to identify the contribution of each component, the contribution formula is used (percentage point):

$$\text{Percentage point} = \frac{(g_0 - g_{-1})}{z_{-1}} * 100$$

where the variable g is part of the variable z .

Periodicity: Monthly.

Source: table 15.1.

Graph 16. Interest rates on loans of other financial intermediaries

Description: Other financial intermediaries consist of resident financial corporations engaged in financial intermediation expect depository corporations, including insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo other financial intermediaries are microfinance institutions whose main activity is loan granting. Other financial intermediaries (microfinance institutions) along with other depository corporations (commercial banks) are licensed institutions for loan granting. Interest rates are calculated and published based on effective annual rate. Sectors are broken down into nonfinancial

corporations and households, consistent with the international standards. Formula used for calculation of effective annual rate is shown below:

$$Eff = \frac{\left(1 + \frac{AG}{n}\right)^n - 1}{fee}; \quad fee = 1 - disagio$$

where Eff stands for annualized agreed rate, AG is the nominal agreed rate among the parties, and n is the number of capitalization periods per year, i.e. $n = 1$ for yearly interest payment (12/12), $n = 2$ for semi-annual interest payment (12/6), $n = 4$ for quarterly interest payments (12/3), and $n = 12$ for monthly interest payments (12/1). The interest rate reported to the CBK will not include any fee, tax nor any other cost related to the third parties, like taxes to state, which bank pays for the client. However, costs manifested as a disagio in case of a loan must be considered as an interest payment. Disagio, defined as the difference between the nominal amount of the loan and the amount received by customer, shall be considered as an interest payment at the start of the contract (time t_0) and shall be reflected in the annualized agreed rate. The disagio is related directly with the loan processing and it is an interest cost for specific loan agreement or new contract. Interest rates on loans are flow statistics that include only new contracts during the month.

Periodicity: monthly.

Source: table 18.1.

Graph 17. Other financial intermediaries new loans by sectors

Description: Other financial intermediaries consists of all resident financial corporations except depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo, other financial intermediaries are microfinance institutions whose main activity is loan granting. New loans include loans extended only within the referring period and as such are classified as flow data (e.g. loans of May 2012 represent only loans issued during that month, not including loans issued during previous periods, as is the case with outstanding loans).

Periodicity: monthly.

Source: table 17.3.

Graph 18. Maturity breakdown of other financial intermediaries loans

Description: Other financial intermediaries consist of all resident financial corporations except depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo, other financial intermediaries are microfinance institutions whose main activity is loan granting. Other financial intermediaries loans by maturity are presented as outstanding amounts. This means that amounts shown represent active loans i.e. other financial intermediaries claims on respective institutional and economic sectors. Classification in time buckets is based on international statistical standards.

Periodicity: monthly.

Source: table 17.1.

Graph 19. Other financial intermediaries loans by sectors

Description: Other financial intermediaries consist of all resident financial corporations except depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo, other financial intermediaries are microfinance institutions whose main activity is loan granting. Other financial intermediaries loans by sectoral breakdown are presented as outstanding amounts. This means that amounts shown represent active loans i.e. other financial intermediaries claims on respective institutional sectors. Classification of loans by sector is based on the purpose of loans granted while sectorization is based on international statistical standards of IMF, etc.

Periodicity: monthly.

Source: table 17.1.

Graph 20. Other financial intermediaries loans by economic sectors

Description: Other financial intermediaries consist of all resident financial corporations except depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo, other financial intermediaries are microfinance institutions whose main activity is loan granting. Other financial intermediaries loans by economic sectors are presented as outstanding amounts. This means that amounts shown represent active loans i.e. other financial intermediaries claims on respective institutional sectors. The classification of loans by economic sectors was based on NACE classification, which represents the classification of loans by purpose.²

Periodicity: Monthly

Source: table 17.2

Graph 21. Kosovo budget

Description: General government exercises legislative, judicial, and executive authority over other institutional units within a specified area and is comprised from the central government, federal government, local government and social security funds. In case of Kosovo, there are two levels, central government and local governments. Budget statistics include budget revenues and expenditures. The data are presented as flow statistics. The CBK is not the official producer of government statistics.

Periodicity: monthly.

Source: table 26.1 and 26.2.

Graph 22. Prices

Description: Statistics on prices are represented based on the annual change. Annual difference is based on the annual growth formula, using consumer price index. CBK is not official producer of price statistics. The formula for calculating the annual change and the annual average is shown below:

² For details on NACE classification visit http://epp.eurostat.ec.europa.eu/cache/ITY_OFFPUB/KS-RA-07-015/EN/KS-RA-07-015-EN.PDF

$$\text{Annual change} = \left[\left(\frac{CPI^{Y,m}}{CPI^{Y-1,m}} \right) - 1 \right] * 100$$

where $CPI^{Y,m}$ represents Consumer Price Index for the current month (m) of the current year (Y), whereas $CPI^{Y-1,m}$ represents prices index of the current month (m) of the previous year (Y_{-1}).

Periodicity: monthly.

Source: table 28.1.

Graph 23. Prices, main categories

Description: Main categories of prices are based on the price index structure. The calculated percentages were calculated using annual change. The classification in categories as food and beverages, alcoholic drinks, etc., is based on the COICOP (Classification of Individual Consumption by Purpose).³

Periodicity: monthly.

The source of the data: table 28.1.

Graph 24. Import and producer prices

Description: Prices of imports comprise the import prices of goods imported based on specific weights, whereas, producer prices comprise prices of domestically produced goods, using specific weights.

Periodicity: quarterly.

Source: table 28.2.

Graph 25. Exchange rate against EUR currency

Description: The exchange rate is compiled based on monthly average exchange rate and includes Albanian lek, Swiss franc, British pound, Croatian kuna, North Macedonian denar, Serbian dinar, Turkish lira and US dollar.

Periodicity: monthly.

Source: table 35.1.

Graph 26. Real effective exchange rate

Description: Real Effective Exchange Rate (REER) is calculated by using Consumer Price Index (CPI) and Harmonized Consumer Price Index (HICP). Prior to REER calculation, calculate Nominal Effective Exchange Rate (NEER) is calculated. The formula for calculating NEER is as follows:

³ For details on COICOP visit <http://unstats.un.org/unsd/cr/registry/regcst.asp?CI=5>

$$\text{NEER}_t = 100 \sum_{i=1}^n \frac{E_{it}}{E_{i0}} w_i$$

where i represents the individual country currencies, E_{it} represents the nominal exchange rate of EUR currency against other currencies on monthly basis (t) defined as the number of currency units of the country (i) for one unit of the domestic currency. E_{i0} represents nominal exchange rate of EUR currency against currencies of respective country in the base period, and w_i is the weight of the domestic currency (i).

REER is calculated based on the formula below:

$$\text{REER}_t = \sum_{i=1}^n \frac{w_i P_{dt}}{P_{ft}} \text{NEER}_t$$

where P_{ft} represents the index for foreign prices on monthly basis (t) for each countries separately comparing with the base period, whereas P_{dt} represents CPI of Kosovo on monthly basis (t) comparing with the base period.

Periodicity: quarterly.

Graph 30. Balance of payments of Kosovo

Description: Balance of payments represents key economic information that systematically summarizes the economic transactions of residents of Kosovo with the outside world (nonresidents) for a specified period of time. In graph are presented main balance of payments categories, such as: current account, capital account, financial account, and errors and omissions. Until 2008 data are presented on annual basis, and since 2009 on a quarterly basis, and are flow data on net basis.

Periodicity: quarterly.

Source: table 29.1.

Graph 31. Current account

Description: The current account is one of the main categories of the balance of payments of Kosovo. The current account represents the difference between the net exports of goods, services, income inflows and incoming transfers on the one hand, compared with imports of goods, services, income inflows and outgoing transfers, on the other hand. Calculation of the current account does not include financial transactions. In the graph is shown the impact of the categories such as of goods, services, income and transfers account of Kosovo. Until 2008 data are presented on annual basis, and since 2009 on a quarterly basis, and are flow data on net basis.

Periodicity: quarterly.

Source: table 29.2.

Graph 32. Financial account

Description: The financial account shows assets and liabilities of Kosovo's economy to nonresidents for a certain period of time. The graph depicts main categories of financial account such as: direct investments, portfolio investments, other investments (other than portfolio), and reserve assets. Until 2008 data are presented on annual basis, and since 2009 on a quarterly basis, and are flow data on net basis.

Periodicity: quarterly.

Source: table 29.9.

Graph 33. International investments position

Description: International investments position represents the balance sheet of assets and liabilities of Kosovo residents with nonresidents at the end of a certain period. Graph shows the relationship between the assets (Kosovo investments abroad) and liabilities (nonresident investments in Kosovo) and are presented as outstanding amounts. Until 2011 data are presented on annual basis, and since 2012 on a quarterly basis, and on net basis.

Periodicity: quarterly.

Source: table 30.3.

Graph 34. International investments position - by sectors

Description: International investments position represents the balance sheet of assets and liabilities of Kosovo residents with nonresidents at the end of a certain period. The graph shows the relationship between the assets (Kosovo investments abroad) and liabilities (nonresident investments in Kosovo) by sectors such as: central government, central bank, commercial banks, and other sectors (including the private sector). Sectoral classification is based on international statistical standards. Until 2011 data are presented on annual basis, and since 2012 on a quarterly basis, on net basis.

Periodicity: quarterly.

Source: table 31.2.

Graph 35. Direct investments by main countries

Description: Foreign direct investment statistics presented in this graph show the relationship between nonresident investments in Kosovo versus Kosovo residents to investments abroad. Graph shows the geographical distribution of foreign direct investments in Kosovo and vice versa by main investing countries. Moreover, in the graph are not shown all the countries that have invested in Kosovo, but only the larger ones, due to the technical aspects of the presentation. The data are presented as outstanding on net basis.

Periodicity: quarterly.

Source: table 31.1.

Graph 36. Reserve assets

Description: Reserve assets are comprised of international assets classified according to international statistical standards. Data are presented as outstanding amounts.

Periodicity: quarterly.

Source: table 30.4.

Graph 37. Gross external debt

Description: Kosovo's external debt represents liabilities of Kosovo residents to nonresidents in a given period of time. Gross external debt is divided into public and private external debt. Private sector debt includes private debt that in the case of Kosovo has the largest share to total Kosovo's external debt. Until 2011 data are presented on an annual basis, and since 2012 on a quarterly basis. The data are presented as outstanding amounts on gross basis.

Periodicity: quarterly.

Source: table 32.1.

Graph 38. Gross external debt by creditors

Description: Kosovo's external debt represents liability of Kosovo residents to nonresidents in a given period of time. External debt is classified according to Kosovo creditors. The data are presented as outstanding amounts on gross basis.

Periodicity: quarterly.

Source: table 32.2.

PART II: TABLES⁴

Table 1. Financial corporations survey

Description: Financial corporations sector consists of all resident corporations and quasi-corporations engaged in financial intermediation or in related financial activities and are comprised of depository corporations and other financial corporations. Financial corporations survey represents the consolidated financial position of the financial corporations with the external sector, fiscal sector and real sector and is compiled by depository corporations survey (CBK and commercial banks) and other financial corporations survey (insurance companies, pension funds, microfinance institutions, and assets managers). In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach.

Periodicity: quarterly.

Source: CBK, other depository corporations, other financial corporations.

Table 2. Depository corporations survey

Description: Depository corporations comprise the central bank and other depository corporations (commercial banks). Depository corporations survey represents the consolidated financial position of depository corporations with other financial corporations, external sector, fiscal sector and real sector and is compiled by the CBK and other depository corporations survey. At this level, the consolidation is performed among the CBK and other depository corporations. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas the surveys are presented based on the sectoral approach. The concept on broad money includes only deposits which are part of broad money excluding currency in circulation. Broad money comprises deposits of other financial corporations (insurance companies, pension funds, etc.), deposits of nonfinancial corporations, households, and NPISH. This definition is consistent with European Central Bank definition.

Periodicity: monthly.

Source: CBK, other depository corporations.

⁴ Explanatory notes refer to group of tables which have been presented separately in the Monthly Statistics Bulletin (e.g. explanatory notes will be presented on the level of financial corporations survey including table 1.1. Net Foreign Assets and Domestic Claims, and table 1.2. Liabilities).

Table 3. CBK survey

Description: CBK survey is compiled by the CBK balance sheet and includes the CBK financial position with other depository corporations, other financial corporations, external sector, fiscal and real sector. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach.

Periodicity: monthly.

Source: CBK.

Table 4. Other depository corporations survey

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Other depository corporations survey represents the consolidated financial position of other depository corporations with CBK, other financial corporations, external sector, fiscal sector and real sector. Other depository corporation survey is compiled from the other depository corporations balance sheet. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach. There are some methodological changes within the liabilities of other depository corporations being presented within the explanatory notes of table 12.

Periodicity: monthly.

Source: commercial banks.

Table 5. Other financial corporations survey

Description: Other financial corporations survey is compiled based on the balance sheet information from insurance corporations, pension funds, microfinance institutions, and assets managers. Other financial corporations survey represents the consolidated financial position of other financial corporations with depository corporations (central bank and commercial banks), external sector, fiscal and real sector. Other financial corporations survey is calculated based on insurance companies survey, pension funds survey, microfinance institutions, and assets managers. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach. Up to end-2011, some of the other financial corporations statistics are compiled on quarterly basis, while starting from January 2012 on monthly basis. This consists with the implementation of the statistical projects, namely, Statistical Report on Microfinance Institutions, Interest Rates Report on Microfinance Institutions, and Statistical Report on Money transfer Agencies.

Periodicity: quarterly.

Source: other financial intermediaries, insurance companies, pension funds, financial auxiliaries.

Table 6. Other financial intermediaries survey

Description: Other financial intermediaries survey is compiled based on the balance sheet information submitted by microfinance institutions. Other financial intermediaries survey represents the consolidated financial position of other financial intermediaries with depository corporations (central bank and commercial banks), insurance companies, pension funds, financial auxiliaries, external sector, fiscal and real sector. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach. Up to end-2011, other financial intermediaries statistics are compiled on quarterly basis, while starting from January 2012 on monthly basis. This consists with the implementation of the statistical projects, namely, Statistical Report on Microfinance Institutions, and Interest Rates Report on Microfinance Institutions.

Periodicity: quarterly.

Source: microfinance institutions.

Table 7. Insurance companies survey

Description: Insurance companies survey is compiled based on the balance sheet information received from insurance companies. Insurance companies survey represents the consolidated financial position of insurance companies with depository corporations (central bank and commercial banks), other financial intermediaries, pension funds, financial auxiliaries, external sector, fiscal and real sector. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach.

Periodicity: quarterly.

Source: insurance companies.

Table 8. Pension funds survey

Description: Pension funds survey is compiled based on the balance sheet information submitted by the pension funds. Pension funds survey represents the consolidated financial position of pension funds with depository corporations (central bank and commercial banks), other financial intermediaries, insurance companies, financial auxiliaries, external sector, fiscal and real sector. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the instrument, whereas surveys are presented based on the sectoral approach.

Periodicity: quarterly.

Source: pension funds.

Table 9. Financial auxiliaries survey

Description: Financial auxiliaries survey is compiled based on the balance sheet information submitted by money transfer agencies. Financial auxiliaries survey represents the consolidated financial position of money transfer agencies with depository corporations (central bank and commercial banks), other financial intermediaries, insurance companies, pension funds, external sector, fiscal and real sector. In terms of presentation, the survey differs from the balance sheet because in the balance sheet the priority is given to the

instrument, whereas surveys are presented based on the sectoral approach. Up to end-2011, financial auxiliaries statistics are compiled on quarterly basis, while starting from January 2012 on monthly basis. This consists with the implementation of the statistical project called Statistical Report on Money Transfer Agencies.

Periodicity: quarterly.

Source: money transfer agencies.

Table 11. CBK balance sheet

Description: CBK balance sheet represents the financial position of the CBK. Within other financial corporations being presented on CBK liabilities side are included deposits of insurance companies and pension funds. Government deposits include also deposits of Privatization Agency of Kosovo, being presented separately. Within the government deposits at CBK, is included also IMF quota subscription.

Periodicity: monthly

Source: CBK

Table 12. Other depository corporations balance sheet

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation whose liabilities are included in the definition of broad money. In Kosovo, other depository corporations are commercial banks. The balance sheet of other depository corporations represents the aggregated statement of this sub-sector. Since June 2004 there is a methodological change in the balance sheet of other depository corporations. This consists with the implementation of statistical project, namely, Statistical Bank Report and Interest Rate Report. For more regarding the statistical projects stated above, please follow links:

- [Statistical Bank Report](#);
- [Interest Rate Report](#).

For detailed description on methodological changes, refer to explanatory notes on table 12. Other depository corporations deposits.

Periodicity: monthly

Source: commercial banks.

Table 13. Other depository corporations deposits

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation whose liabilities are included in the definition of broad money. In Kosovo, other depository corporations are commercial banks. Deposits at other depository corporations are classified by sectors, sub-sectors and currencies.

Until May 2004, the structure of deposits was composed only from households and legal entities. Within deposits of legal entities are included deposits of all institutions except commercial banks and households. Moreover, within household deposits, until May 2004, were

included also the deposits of NPISH. Since June 2004 until December 2007, deposits of insurance companies include also deposits of pension funds.

Maturity breakdown of deposits was made based on the criteria of original maturity (e.g. if in January 2009 there is a deposit of one year maturity, then this maturity is reported under the item "up to 1 year" until the end of maturity). Since 2010, saving deposits are reported as separated, previously included in the item "other deposits" by maturities. Also, there is a detailed breakdown in terms of deposits by maturity. Item "over 2 years and up to 5 years" up to 2009 includes all deposits with the maturity of "over 2 years".

Periodicity: monthly

The source data: commercial banks.

Table 14. Other depository corporations loans

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Other depository corporations loans are represented as (1) outstanding amounts and as (2) new loans extended during the month.

Outstanding loans include commercial banks claims towards the respective sectors, such as public nonfinancial corporations, other nonfinancial corporations, households, classified by maturities. In this context is not included interbank activity. Besides sectors and sub-sectors institutional classification, loans are classified also by purpose. This breakdown is based on NACE classification.⁵ Table on loans by maturity includes loans in EUR and non-EUR currency, while table on loans by industry includes loans to resident sector, excluding households and NPISH.

New loans include new loans extended only during a certain period and as such they are flow data (e.g. loans of May 2012 represent only loans issued during that month, not including loans issued prior to that period, as is the case with outstanding loans).

Periodicity: monthly.

Source of the data: commercial banks.

Table 15. Other depository corporations effective interest rates

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation whose liabilities are included in the definition of broad money. In Kosovo, other depository corporations are commercial banks. Interest rates are compiled based on annual agreed rate. Sectors are classified as nonfinancial corporations and households, complying with international statistical standards.

Since January 2008, there is a methodological change, where interest rates on loans include also administrative fees applied by commercial banks for loans extended, paid by borrowers. Furthermore, since January 2008 statistics on overdrafts are presented as outstanding and as such are not included in calculation of weighted average. Since 2010, calculation of weighted

⁵ For details on NACE classification visit http://epp.eurostat.ec.europa.eu/cache/ITY_OFFPUB/KS-RA-07-015/EN/KS-RA-07-015-EN.PDF

interest rate excludes loans with favorable conditions. Also since this period new breakdown of loans by purpose is applied, consistent with the NACE nomenclature.

While calculating and publishing interest rates statistics, is used the arithmetic weighted average and criteria such as standard deviation and minimum observations. Annual agreed rate is calculated as follows:

$$AAR = \left(1 + \frac{AG}{n} \right)^n - 1$$

where AAR stands for annualized agreed rate, AG is the contracted nominal rate agreed among the parties, and n is the number of capitalization periods per year, i.e. $n = 1$ for yearly interest payments (12/12), $n = 2$ for semi-annual interest payments (12/6), $n = 4$ for quarterly interest payments (12/3), and $n = 12$ for monthly interest payments (12/1).

These are flow data, representing new contracts during the month. For detailed description on interest rate calculation refer to the [Interest Rates Report](#).

Periodicity: monthly.

Source: commercial banks.

Table 16. Other depository corporations income statement

Description: Other depository corporations consist of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and whose liabilities are included in the definition of broad money. In Kosovo, other depository corporations are commercial banks. Other depository corporations income statement represents aggregated position of banks income and expenditures. Income structure is broken down into interest income and non-interest income. The same criterion is used in expenditure classification. Income statement data are flow data, being presented as cumulative within the calendar year, (e.g. the data of January 2012 include the data only for January 2012, whereas the data as of May 2012 include the data from January 2012 up to May 2012).

Periodicity: Monthly

Source: Commercial banks.

Table 17. Other financial intermediaries balance sheet

Description: Other financial intermediaries consists of all resident financial corporations except depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo, other financial intermediaries are microfinance institutions whose main activity is loan granting. Balance sheet of other financial intermediaries is presented as aggregated. Since June 2004 and up to December 2011 statistics on other financial intermediaries are published on quarterly basis, while starting from January 2012 on monthly basis. This consists with the implementation of the statistical project named Statistical Report on Microfinance Institutions.

Periodicity: monthly.

Source: microfinance institutions.

Table 18. Other financial intermediaries loans

Description: Other financial intermediaries consist of all resident financial corporations except depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo, other financial intermediaries are microfinance institutions whose main activity is loan granting. Other financial intermediaries loans are represented as (1) outstanding amounts and as (2) new loans extended during the month.

Outstanding loans include other financial intermediaries claims towards the respective sectors, such as public nonfinancial corporations, other nonfinancial corporations, households, classified by maturities.

New loans include new loans extended only during a certain period and as such they are flow data (e.g. loans of May 2012 represent only loans issued during that month, not including loans issued prior to that period, as is the case with outstanding loans). Besides sectors and sub-sectors institutional classification, loans are classified also by purpose. this breakdown is based on NACE classification.⁶

Periodicity: monthly.

Source: microfinance institutions.

Table 19. Other financial intermediaries effective interest rates

Description: Other financial intermediaries consist of resident financial corporations engaged in financial intermediation expect depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo other financial intermediaries are microfinance institutions whose main activity is loan granting. Other financial intermediaries (microfinance institutions) along with other depository corporations (commercial banks) are licensed institutions for loan granting.

Interest rates are calculated and published based on effective annual rate. Sectors are broken down into nonfinancial corporations and households, consistent with the international standards. Formula used for calculation of effective annual rate is shown below:

$$Eff = \frac{(1 + \frac{AG}{n})^n - 1}{fee}; \quad fee = 1 - disagio$$

where *Eff* stands for annualized agreed rate, *AG* is the nominal agreed rate among the parties, and *n* is the number of capitalization periods per year, i.e. *n* = 1 for yearly interest payment (12/12), *n* = 2 for semi-annual interest payment (12/6), *n* = 4 for quarterly interest payments (12/3), and *n* = 12 for monthly interest payments (12/1). the interest rate reporting to CBK will not include any fee, tax nor any other cost related to the third parties, like taxes to state, which bank pays for the client. However, costs manifested as a disagio in case of a loan must be considered as an interest payment. Disagio, defined as the difference between the nominal amount of the loan and the amount received by customer, shall be considered as an interest payment at the start of the contract (time t_0) and shall be reflected in the annualized agreed rate. the disagio is related directly with the loan processing and it is an interest cost for specific loan agreement or new contract. Interest rates on loans are flow statistics that includes only new contracts during the month.

Table 20. Other financial intermediaries income statement

Description: Other financial intermediaries consist of resident financial corporations engaged in financial intermediation except depository corporations, insurance companies, pension funds, money transfer agencies and exchange bureaus. In Kosovo other financial intermediaries are microfinance institutions whose main activity is loan granting. Other financial intermediaries income statement represents aggregated position of income and expenditures. Income structure is broken down into interest income and non-interest income. the same criterion is used in expenditure classification. Income statement data are flow data, being presented as cumulative within the calendar year, (e.g. the data of January 2012 include the data only for January 2012, whereas the data as of May 2012 include the data from January 2012 up to May 2012).

Periodicity: monthly.

Source: microfinance institutions.

Table 21. Financial auxiliaries balance sheet

Description: Based on international statistical standards, money transfer agencies are treated as financial auxiliaries, whose primary role is to support financial intermediation. In Kosovo, financial auxiliaries are money transfer agencies. Balance sheet of financial auxiliaries is presented as aggregated. Up to December 2011 statistics on financial auxiliaries are published on quarterly basis, while starting from January 2012 on monthly basis. this consists with the implementation of the statistical project named Statistical Report on Money Transfer Agencies.

Periodicity: monthly.

Source: money transfer agencies.

Table 22. Financial auxiliaries income statement

Description: Financial auxiliaries consist of resident financial corporations engaged in supporting financial intermediation except depository corporations, insurance companies, pension funds, and exchange bureaus. In Kosovo, financial auxiliaries are money transfer agencies. Financial auxiliaries income statement represents aggregated position of income and expenditures. Income structure is broken down into interest income and non-interest income. the same criterion is used in expenditure classification. Income statement data are flow data, being presented as cumulative within the calendar year, (e.g. the data of January 2012 include the data only for January 2012, whereas the data as of May 2012 include the data from January 2012 up to May 2012).

Periodicity: monthly.

Source: money transfer agencies.

Table 23. Insurance companies balance sheet

Insurance companies are financial corporations whose activity is focused on vehicle insurance, insurance of claims, health insurance, life insurance, etc. Balance sheet of insurance companies presents the financial position of insurance companies. From 2004 until March 2016 the data on insurance companies were published on quarterly basis, while since April 2016, these statistics are compiled and published on monthly basis.

Periodicity: monthly.

Source: insurance companies.

Table 24. Payments system

Description: Interbank payments include statistics referring to the value of overdrafts through Automatic teller Machines (AtMs), Point of Sales (POSs), e-Banking, etc. Payments system statistics are presented as cumulative within the calendar year, (e.g. the data of January 2012 include the data only for January 2012, whereas the data as of May 2012 include the data from January 2012 up to May 2012). However, statistics on number of AtMs, POSs, bank accounts, and e-banking accounts are presented as outstanding amounts.

Periodicity: quarterly.

Source: CBK.

Table 25. Other depository corporations network and number of employees

Description: Other depository corporations consists of all resident financial corporations (except the central bank) and quasi-corporations that are mainly engaged in financial intermediation and that issue liabilities included in the national definition of broad money. In Kosovo, other depository corporations are commercial banks. Data on other depository corporations (commercial banks) network are presented on the level of Kosovo regions. Within the banking units are included head offices, branches, sub-branches, and all other banking units. the data on banking network and its staff are outstanding.

Periodicity: monthly.

Source: commercial banks.

Table 26. Insurance corporations activity

Description: This subsector includes resident insurance corporations and quasi-corporations whose principal function is to provide life and non-life insurance. In terms of insurance companies activity are represented the income from domestic insurance of vehicles (third party liabilities), and other insurances (property insurance, insurance against fire, and other misfortune insurances). In compliance to this classification are presented the number of sold insurance policies and insurance companies' expenditures.

Periodicity: monthly.

Source: CBK.

Table 27. Kosovo budget

Description: the table on Kosovo budget presents the actual revenues and expenditures. the income is classified as border and domestic revenues further detailed according to the Ministry of Finance. Budget expenditures are presented based on the purpose broken down by holders (government levels).

Periodicity: monthly.

Source: Ministry of Finance.

Table 28. Gross domestic product

Description: The data on Gross Domestic Product (GDP) are presented according to the Kosovo Agency of Statistics. Net export comprises export and import of goods (including transport and insurance expenditures) and export and import of services. GDP statistics are presented on the basis of expenditures and by economic sectors approach.

Periodicity: annually.

Source: Kosovo Agency of Statistics.

Table 29. Prices

Description: Prices statistics are compiled based on COICOP (Classification of Individual Consumption by Purpose) using specific weights by components and sub-components.⁷ Statistics on prices are retrieved from respective regional offices as Ferizaj, Gjakova, Gjilan, Mitrovica, Peja, Prizren and Prishtina. Statistics on prices are presented based on annual change, based on annual growth formula. the annual change formula is as follows:

$$\text{Annual change} = \left[\left(\frac{CPI^{Y,m}}{CPI^{Y-1,m}} \right) - 1 \right] * 100$$

where $CPI^{Y,m}$ represents Consumer Price Index for the current month (m) of the current year (Y), whereas $CPI^{Y-1,m}$ represents prices index of the current month (m) of the previous year (Y_{-1}).

Periodicity: monthly.

Table 30.1. Balance of payments

Description: Balance of payments statistics are flow data. Balance of payments statistics are compiled and published in compliance with international standards, presenting credit and debit side on the level of each component. Goods category also includes freight and insurance cost. Within current transfers, is included also UNMIK budget which as an institution, for statistics purposes is treated as nonresident to Kosovo, whereas its staff, is treated based on the residential criteria (one year period). this treatment is also valid for EULEX. KFOR is part

⁷ For details on COICOP visit <http://unstats.un.org/unsd/cr/registry/regcst.asp?Cl=5>

of balance of payments of Kosovo. For further details on UNMIK, EULEX, KFOR refer to [Balance of Payments Statistics Methodology](#).

One of the main components within the current account is remittances. Statistics on remittances are presented by receiving channels and countries of origin. the classification of remittances by receiving channels is broken down based on institutional channels (commercial banks and money transfer agencies) and non-institutional channels (cash). these statistics are flow.

Periodicity: quarterly.

Source: CBK, other depository corporations, nonfinancial corporations, government institutions, etc.

Table 31.2 International investments position

Description: International Investment Position Statistics (IIP) are presented as outstanding amounts, which are compiled and published in international statistical standards. IIP represents the balance sheet of external financial assets and liabilities of a particular country with other countries at the end of a certain period. Balance at the end of the period is a result of all transactions and adjustments arising from exchange rate movements or changes in market prices. IIP consists of (i) net investments in equity (share capital investments abroad minus foreign investment in domestic companies) and (ii) a country's net external debt (lending to nonresidents less borrowing from nonresidents). Over the years, Kosovo's economy has consistently been net creditor to the other countries of the world. A net creditor means that the net international assets are higher than international liabilities.

table of harmonization between the BOP and IIP represents a close link between IIP and BOP. Financial account of the BOP represents transactions related to external financial assets and liabilities of Kosovo, that affects the outstanding amounts on the external financial assets and liabilities presented in the IIP. Financial transactions can occur because of the increase / decrease in assets / liabilities and profit / loss on assets / liabilities (e.g. interest from investments or dividend distribution). IIP statistics since 2007 are published on an annual basis and since 2012 on a quarterly basis.

Periodicity: quarterly.

Source: CBK, other depository corporations, nonfinancial corporations, government institution, etc.

Table 32.3 Direct investments

Description: Foreign direct investments are composed of nonresidents investments in Kosovo and investments of Kosovo residents abroad. these statistics are presented by sectors and countries. the classification of foreign direct investments by economic categories is based on purpose and includes investments from privatization process and new investments. these statistics are flow data. Foreign investments include also intercompany loans between resident and nonresident companies.

Periodicity: quarterly.

Source: other depository corporations, nonfinancial corporations, etc.

Table 33.1 External debt

Description: Kosovo's external debt represents liabilities of Kosovo residents to nonresidents in a given period of time. Gross external debt include public and private external debt, while net external debt shows net external position of Kosovo, representing the difference between nonresidents investments in Kosovo (liability) and investment of Kosovo residents abroad (assets). Private sector debt includes private debt that in the case of Kosovo has the largest share to total external debt of Kosovo.

Periodicity: quarterly.

Source: MoF, CBK.

Table 34.1 Coordinated portfolio investments survey

Description: Coordinated portfolio investments survey represents investments in equity and debt securities further divided into short and long term. Portfolio investments are classified also by country, on gross basis.

Periodicity: quarterly.

Source: CBK, other depository corporations, nonfinancial corporations, etc.

Table 35. Trade balance

Description: Statistics on trade balance are presented by countries and main components. Countries are grouped in European Union countries, CEFTA, other European countries and Non-European countries. Exports are presented by destination country, whereas the import of goods was classified by the country origin. Trade balance is also presented based on goods imported by chapters and by countries.

Periodicity: monthly.

Source: Kosovo Agency of Statistics.

Table 36. Exchange rate

Description: Exchange rate is compiled based on monthly average currencies against EUR currency. The currencies presented belong to countries which represent the main trade partners of Kosovo and other regional countries. For information purposes, was included also US dollar against EUR. Real Effective Exchange Rate (REER) is calculated using Consumer Price Index (CPI) and Harmonized Consumer Price Index (HCPI). Prior to calculating REER Nominal Effective Exchange Rate (NEER) is calculated. NEER calculating formula is as follows:

$$\text{NEER}_t = 100 \sum_{i=1}^n \frac{E_{it}}{E_{i0}} w_i$$

where i represents the individual country currencies, E_{it} represents the nominal exchange rate of EUR currency against other foreign currencies on monthly basis (t) defined as the number of currency units of the country (i) for one unit of the domestic currency. E_{i0} represents nominal exchange rate of EUR currency against currencies of respective country in the base period, and w_i is the weight of the domestic currency (i).

After that REER is calculated based on the following formula:

$$\text{REER}_t = \sum_{i=1}^n \frac{w_i P_{dt}}{P_{ft}} \text{NEER}_t$$

where P_{ft} represents the index for foreign prices on monthly basis (t) for each of the countries separately comparing with the base period, whereas P_{dt} represents CPI of Kosovo on monthly basis (t) comparing with the base period.

Periodicity: monthly.
